

2) Observable canonical form realization

Example: Find an irreducible realization of the following function:

$$\mathbf{G}(s) = \begin{bmatrix} \frac{1}{s+1} & \frac{1}{s^2+3s+2} \end{bmatrix}$$

Analysis: The least common denominator of the two elements of $G(s)$ is $(s+1)(s+2)$. Therefore,

$$\begin{aligned} y &= \mathbf{G}(s)u \\ &= \frac{1}{(s+1)(s+2)} \begin{bmatrix} (s+2) & 1 \end{bmatrix} \begin{bmatrix} u_1 \\ u_2 \end{bmatrix} \end{aligned}$$

where, y is a scalar, c and B are 1×2 and 2×2 matrices, respectively.

Dialectics of Space and Place across Virtual and Corporeal Topographies June Jordaan, Carl Haddrell, Christine Alegria, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Dialectics of Space and Place across Virtual and Corporeal Topographies explores the inter and multi disciplinary subjects of space and place in two parts Part I Virtual topographies of Space and Place is concerned with themes related to immaterial places and Part II Corporeal Topographies of Space and Place explores narratives of real and imagined experiences of places This volume underpinned by an array of philosophical positions provides a foundation for new and critical dialogues on space and place *Time and Transformation in Architecture* Tuuli Lähdesmäki, 2018-06-26 Time and Transformation in Architecture edited by Tuuli Lähdesmäki approaches architecture and the built environment from an interdisciplinary point of view by emphasizing in its theoretical discussions and empirical analysis the dimensions of time temporality and transformation and their relation to human experiences behavior and practices The volume consists of seven chapters that explore the following questions How do architectural ideas ideals and meanings emerge develop and transform How is architecture manifested in relation to time time space and the social dimensions it entails and produces The volume provides both multifaceted theoretical discussions on time and temporality in architecture and empirical case studies around the globe in which these theories and conceptualizations are tested and explored Contributors are Eiman Ahmed Elwidaa Andr van Graan June Jordaan Joongsu Kim Tuuli Lähdesmäki Assumpta Nnaggenda Musana Sanja Rode and Smaranda Spănu Architecture and the Image at the Turn of the 21st Century Sanja Rodeš, 2024-06-28 This book examines architecture image and media relationships as productive for architecture and architectural discourses By arguing that the relationships between architecture and media cannot be dismissed via linear criticism of architecture and media or image these relations are instead seen as a part of a sphere a mediasphere of complex relationships In lieu of anything like a consensus on the contemporary condition of architecture referring to the late twentieth and the twenty first centuries the starting point of this book is that the relationships between architecture media and images continue to multiply owing to continuous technological advancements Contemporary architecture considered in this book is related to the selected circumstances of high visibility where architectural images are propelled into visibility and conflated with non architectural images This takes architecture outside of architectural only discourse and into the public realm By granting higher visibility to both the architectural images and architecture in the public realm architecture can also be influenced by the various perceptions of the general public and can enter public consciousness via non architectural media With increased visibility architecture's far reaching presence calls for more structured analysis of its nature and potential As the analysed architecture in this book is associated with the discourses outside of architecture some of which relate to terrorism natural disaster and branding and consumption the limits of contemporary architectural discipline are questioned and extended This book is written for academics and students

in architectural history theory and criticism particularly those interested in visual and media studies

Space as Storyteller Laura Chiesa, 2016-07-15 Walter Benjamin's Arcades Project suggests that space can become a storyteller if so plenty of fleeting stories can be read in the space of modernity where repetition and the unexpected cross pollinate In Space as Storyteller Laura Chiesa explores several stories across a wide range of time that narrate spatial jumps from Benjamin's tangential take on the cityscape the experimentalism of Futurist theatricality the multiple and potential atlases narrated by Italo Calvino and Georges Perec and the posturban thought and practice of Bernard Tschumi and Rem Koolhaas OMA Space as Storyteller diverts attention from isolated disciplines and historical or geographical contexts toward transdisciplinary encounters that mobilize the potential to invent new spaces of comparison a potential the author describes as architecturability

Architektur zwischen »Drinnen« und »Draußen« Gerhard Schnabl, 2014-03-15 Metropolitane Spannungsfelder zwischen Stadt und Hochhaus ausgehend vom Beginn des 20. Jahrhunderts werden in diesem Buch in Konzept und Gestalt der Zugangsinszenierung und deren Entwicklungen Sonderformen sowie Stagnationen und auch Rückschritten betrachtet vom zumeist öffentlichen Vorfeld über die Gestik der Fassade bis hin zum Innenbereich mit seinen Anknüpfungen an vertikale und horizontale Erschließungen Es entsteht ein facettenreiches Bild über die architektonischen Entwicklungen zwischen Drinnen und Draußen in Metropolen

Past Peripheral Patrick D. Flores, 2008 *Spirit of the Place* Péter György, 2008-10 A fascinating journey into the often unsettling and shadowy worlds of public memory and memorializing in Europe and the United States of America Inspired and insightful readings of museums monuments libraries and other memory spaces that help to rethink many contemporary orthodoxies about recollective practices cultural heritage and the very relationship between past present and future Expresses the complex relationship between history media arts politics and culture György gives first hand account analysis and criticism about places of memory with photos accompanying the text The presented museums range wide in space and genre Holocaust sites museums dedicated to Sigmund Freud all over Europe as well as leading collections of contemporary art Published by the Center for Media and Communications Studies of the Central European University distributed by CEU Press

The Architectural Review, 2004

Wig Wag Alessandra Vaccari, 2005 Flags are everywhere even in our wardrobes Why are these brightly coloured cloth rectangles so fascinating Are they fetishistic cult objects fascinating stereotypes of identity or unsettling signs of power And how do they fit into the omnivorous iconography of fashion and the anarchy of the creative processes of style The book Wig Wag The Flags of Fashion rides along in the midst of that dense stream of visions and references sporty ethnic patriotic or nostalgic triggered by flags as a theme and by their relationship with fashion It tears them away from the immediate association with the concept of nations and follows them through their visual metamorphoses that were created and guided by historic names such as Elsa Schiaparelli Christian Dior and Emilio Pucci designers and brands like Tommy Hilfiger Ralph Lauren Vivienne Westwood Franco Moschino Dolce and street style brands including Mambo Vans Eastpak Gsus Nigo Stussy and Ipath Irony

and identity are the driving forces behind the multiple ways in which the flags of the United States Great Britain and Italy have been appropriated Fashion also has a place for the colors of Brazil Jamaica and Japan red flags rainbow flags and flags that have no country The book traverses this explosion of colourful symbols to present the creative processes of a fashion in close contact with cinema art design and music

Aesthetics and the Philosophy of Art Peter Lamarque, Stein Haugom Olsen, 2018-12-06 For over fifty years philosophers working within the broader remit of analytic philosophy have developed and refined a substantial body of work in aesthetics and the philosophy of art curating a core foundation of scholarship which offers rigor and clarity on matters of profound and perennial interest relating to art and all forms of aesthetic appreciation Now in its second edition and thoroughly revised **Aesthetics and the Philosophy of Art The Analytic Tradition An Anthology** captures this legacy in a comprehensive introduction to the core philosophical questions and conversations in aesthetics Through 57 key essays selected by leading scholars Peter Lamarque and Stein Haugom Olsen this anthology collects modern classics as well as new contributions on essential topics such as the identification and ontology of art interpretation values of art art and knowledge and fiction and the imagination New to this edition are selections which treat aesthetic experience more widely including essays on the aesthetics of nature and aesthetics in everyday life Other carefully chosen pieces analyze the practice and experience of specific art forms in greater detail including painting photography film literature music and popular art such as comics This bestselling collection is an essential resource for students and scholars of aesthetics designed to foster a foundational understanding of both long standing and contemporary topics in the field
