A Dickens Boxed Set: 20 Novels & Over 200 Short Stories, Plays, Poems & Articles Charles Dickens, 2023-12-22 Charles Dickens's *A Dickens Boxed Set* encapsulates the vast literary tapestry of one of the 19th century's most beloved authors. This comprehensive collection includes twenty novels alongside a wealth of over two hundred short stories, plays, poems, and articles tracing the evolution of Dickens's narrative voice and thematic concerns which range from social criticism to intricate character studies. Each work showcases his unique blend of humor, pathos, and sharp insights into Victorian society, inviting readers to explore the intricate social fabric of the era through his dynamic storytelling style. As a novelist, social reformer, and public figure, Charles Dickens was profoundly influenced by his own life experiences, including his impoverished childhood and the stark realities of class division. These experiences not only shaped his worldview but also fueled his passion for advocating social change through literature. Dickens's vast oeuvre reflects his profound empathy for the underprivileged and his commitment to highlighting the crucial issues of his time, resonating with readers even today. This boxed set is an essential treasure for both seasoned Dickens enthusiasts and newcomers alike. The comprehensive assembly allows readers to delve deeply into the complexities of his works, offering an unparalleled exploration of Dickens's vast creative genius. Each story invites reflection on human nature and society, making it a timeless addition to any literature lover's bookshelf.

Decolonizing Comparative Literature Chi P. Pham, Jose Monfred C. Sy, Thi Nhu Trang Nguyen, 2025-11-23 This book promotes a novel and nuanced understanding of how the practices of comparative literature have engaged with the politics of nation building in postcolonial Southeast Asia. It provides readings of Southeast Asian literatures in a comparative context, demonstrating how such readings enable texts to engage with issues connected to postcolonial nation building across the region. Such issues include social exclusion, urbanization, and environmental destruction, post-war traumas, animal narratives, migration, identity, gender, and literature and politics. In doing so, this book moves beyond traditional comparative literature, which is overwhelmingly rooted in Western literature and scholarship. To this end, it is an invitation to decolonize comparative literature as a discipline. Few studies have attempted to examine the alternative non-Western literary traditions that emerge from this specific Asian region, and so this book presents a rich combination of theoretical and critical studies that contribute to advancing the discipline of comparative literature in Southeast Asian geographies. It is relevant to scholars working in Asian literature, comparative literature, and in postcolonial frameworks in philosophy and cultural studies.
