**Contracts** Christina L. Kunz, Carol L. Chomsky, 2010 This casebook allows students to learn more effectively by providing critical reading and thinking questions and well situated text boxes with supplemental information to explain and expand understanding. With better advance preparation class can begin at a more sophisticated level and proceed to deeper issues. The material is presented in a visually engaging manner and the accompanying electronic version provides live links to cited sources and useful websites. Provisions from the Restatement UCC CISG and UNIDROIT appear in text eliminating the need for a statutory supplement. The book is organized chronologically in the traditional order for contract analysis. It includes classic cases foundational in the historical development of many concepts and newer cases chosen for their teachability and lessons about modern business practices and current issues. Practice Pointers provide a transactional focus by explaining the function of common contract clauses. The book includes both essay and multiple choice problems that encourage periodic review. *Contracts* Christina Kunz, Carol Chomsky, Jennifer Martin, Elizabeth Schiltz, 2025-06-23 Description Coming Soon

George, Russell Korobkin, 2021-01-31 The perfect casebook for the modern Contracts course. This highly focused case based text offers a comprehensive treatment of the basic issues of contract law and emphasizes development of analogical reasoning skills. Each section is limited to three types of materials: brief narrative, judicial opinions and discussion problems, and is designed to teach students how to read opinions, analyze issues, distinguish material from immaterial facts, and apply holdings to similar problems. New to the Third Edition: New discussion problems have been added throughout the book to better enable the students to apply the material learned from the principle cases to new factual situations and then learn how judges have dealt with those situations. New narrative material, cases and discussion problems have been added on the topic of contract interpretation, the most common source of contract law disputes. Professors and student will benefit from Lean focused text with a 2 color design that can be taught cover to cover in a one semester course. Sections that are limited to three types of materials: brief narrative, judicial opinions and discussion problems, which best promote the teaching and learning of the method of legal reasoning. Both classic and contemporary cases are edited to include sufficient background and reasoning for students to analyze the court's decision. Discussion problems present summarized facts from real cases. **Contracts** Ben Templin, 2019-02-21 Contracts A Modern Coursebook Second Edition by Ben Templin is an innovative coursebook unlike any other on the market.
