The Materiality of Narrative Dynamics Stefan Iversen, Evan Van Tassell, 2025-06-02 The dynamic nature of storytelling has long been one of the major concerns of narrative research but relatively little scholarship has engaged with the relationship between storytelling dynamics and the underlying material forms of cultural texts This volume seeks to remedy this by asking questions such as How might the affordances of new media guide audience reception in subtle ways How might the dynamism of legacy media be better recognized when examined through a multimedial lens How do the physical processes of production define the horizons of both authorial activity and audience response The insight that drives these investigations is two fold first that functions and effects of narratives are deeply intertwined with material forces of production distribution and reception and second that an analysis of any specific narrative must include attention to these material matters and how they affect the unfolding of stories over time The chapters in this collection explore interplays between material forces and narrative dynamics across a range of genres and intellectual arenas In doing so they both fill gaps in current methodological frameworks and call attention to the many gaps that are yet to be filled Upstarts!: How GenY Entrepreneurs are Rocking the World of Business and 8 Ways You Can Profit from Their Success Donna Fenn, 2009-09-08 They re young they re brash they re smart and they re 77 million strong Generation Y is creating startups at an unprecedented rate and their approach to business is unlike anything you ve seen The generation described by the media as spoiled entitled even narcissistic is proving these notions false every day Inspired by the rock star entrepreneurs of previous generations and driven by a burning desire to control their own destinies GenY is rewriting the entrepreneurial playbook one cool startup at a time Inc magazine writer Donna Fenn interviewed more than 150 young CEOs to learn what
