Silicon Valley in the 2030s is not so different from today, filled with vaguely sexist CEOs, contested inequality, politics, and startups that are almost a joke. After she loses her job when her startup folds and loses her home to California's annual wildfires, Sara joins the latest thing: an unnamed tech giant's quasi-utopian community floating above the drowned land that was once Monterey. Alone on the inside with a thousand mysteriously chosen strangers, Sara is insulated by an all-powerful corporation from the turmoil of crumbling governments and a changing climate. Everyone around her seems incredibly thankful, rescued from gig work and student loans and bad news, but she can't find her own gratitude. As she learns more about her new home, she begins to see the cracks in its perfect facade. She must choose between surveillance and lies from the anonymous algorithms that protect her or face a vulnerable life outside the system to which she has signed away her next five years. Leaving, she learns, may not even be an option. **The Alliance** Chris G. Invasion has plagued entire continents throwing surviving societies into turmoil famine disease Mankind's legacy has been reduced to ruins of rubble and rust The future seems bleak for the isolated pockets of resistance and what lurks in the skies will not rest until it has claimed every single one But all is not lost for the despairing humans In the infinitude of the universe there may be hope so long as humans can learn to trust those who claim responsibility for this calamity who claim their rescue plan will rock the very foundations of both worlds Nearing extinction do they have a choice Salvation rests on the shoulders of two men who are more than what they appear Ethan Alexander Colt is a resistance fighter expected to make the ultimate sacrifice the other is the tormented Cpt Donovan Ford who must conquer his ghosts and embrace his destiny as a soldier Outnumbered and outmatched two species will have to depend on the Conduits ancient combat suits once operated by the infamous Scientists But humans were designed with flaws and Ethan and Donovan are no different Will they see beyond their own aspirations and fight for the greater good Or will they threaten the endurance of the Galactic Alliance and stability of the cosmos Finding new science fiction authors that are great is very difficult and I'm very happy that Great Britain has yet again produced an outstanding new author The Alliance by Chris G Wright is a new Sci Fi series that will take the reader to a new concept when it comes to science fiction space opera action adventure mystery and some fantasy Erik Martin Willen author of the Nastragull series
