**African Witchcraft and Global Asylum-Seeking** Katherine Luongo,2023-04-17 This book analyzes how over the last two decades immigration regimes in three primary refugee receiving states in the Global North Canada Australia and the United Kingdom have engaged with allegations about witchcraft driven violence made by asylum seekers coming from Anglophone countries across the African continent The work intervenes at the nexus of anthropological historical legal developmental and human rights literatures to offer fresh insights into extrajudicial violence and global migration Taking witchcraft based asylum cases as its focal point it argues that the recent dramatic expansion in claims to refugee protection under the particular social group category of the 1951 UN Refugee Convention reflects immigration authorities increasing willingness to consider how legally recognizable persecution can derive from cultural practices and beliefs Reflecting critically on such cases it advances understandings of how witchcraft beliefs and practices have persisted as significant engines of violence in the contemporary world It sheds light both on the limits of legal pluralism and cultural relativism in asylum adjudication and on how social scientific expertise contributes not simply to the flow of ideas but also to the channelling of people across national cultural and epistemological boundaries The book will be essential reading for students and researchers in legal anthropology African studies human rights transnational history migration and refugee law and policy and the history and anthropology of witchcraft

**The Meaning of Myth in Uncertain Times** Evelien Bracke,2025-12-29 This book examines how ancient mythology forms part of the stories we tell ourselves about today s uncertain times not only in popular culture but also in sociocultural and political debates It particularly explores the ways in which classical myths shape how our modern secular societies think about the interconnected geopolitical technological and ecological issues we are facing and our potential futures Classical myths like those of Achilles Medea and Odysseus are everywhere from films and novels to social media and games But how and why are we still fascinated with them particularly now Can these strange and often painful stories from societies so radically different from our own offer us genuine insights today This expanded English edition of Evelien Bracke s award winning Dutch book *Leidraad door het labyrint* explores how and why Greek and Roman myths despite their ancient origins are surprisingly meaningful in these times of uncertainty Bracke offers a contextualization and literary analysis of classical mythology looking at both texts and visual media This allows readers to gain a better understanding of how people draw inspiration from the past in their attempt to create a better future and how these stories provide both collective and individual guidance in navigating the turbulent 21st century The Meaning of Myth in Uncertain Times is suitable for students scholars teachers and general readers interested in mythology and ancient Greek and Roman history and culture providing insights that are relevant to the challenges we all face today

**World Press Review** ,1983 **The Future of Religion in American Politics** Charles W. Dunn,2009-01-09 From City Hall to the White House from local courthouses to the Supreme Court religion is indisputably influential in American politics Finding the proper relationship between church and state has given rise to difficult questions and heated debates in such disparate arenas as education abortion immigration medicine warfare and sexuality Even though the United States Constitution expressly forbids a direct relationship between the two religion and

politics in America are inextricably linked Charles W Dunn's *The Future of Religion in American Politics* traces the history of religion in America's political sphere and explores the issues concerning its continuing relevance. An examination of four eras—the founding, the Civil War, the New Deal, and the modern—suggests the appropriate interaction of religion and politics in the twenty-first century. The widely recognized contributors raise many thought-provoking questions about the extent of religious influence on the U.S. government today and in the future.

**Inside the Whirlwind** Jason Alan Carter, 2016-12-09 How would ordinary African Christians interpret the figure and book of Job, the quintessential biblical book on suffering from contexts of extreme poverty, tropical disease, and rampant suffering? How do African Christians culturally understand issues of theodicy and the nature of evil? What role does the devil play in African Pentecostalism? How does the biblical lament empower faith and foster hope for people living with HIV/AIDS? In what way does a theology of eschatological hope inform the spirituality and prayers of ordinary African believers in the midst of suffering? *Inside the Whirlwind* offers insight on these fascinating questions. Based upon the perspectives of Fang Christians in Spanish speaking Equatorial Guinea, Central Africa, the thematic and theological reflections on evil, suffering, and hope emerging from sermons and Bible studies on the book of Job offer a remarkable window to view the main theological issues shaping grassroots African Christianity in the twenty-first century.

**The Wall Street Journal**, 2006    **Health Science Books, 1876-1982**, 1982    *Media Asia*, 2005    *World Civilizations* Peter N. Stearns, 1999-10 The primary goal of *World Civilizations: The Global Experience* Third Edition is to present a truly global history one that both discusses the development of the world's leading civilizations and also emphasizes the major stages in the interactions among different peoples and societies. The book examines all the world's civilizations including those in the Western tradition but also those civilizations sometimes neglected in world history texts for example the nomadic societies of Asia, Latin America and the nations and states of the Pacific Rim. *World Civilizations* balances this discussion of independent developments in all the world's major civilizations with comparative analysis of the results of international contact.
