Hite,2023-04-26 *Career Development A Human Resource Development Perspective* second edition offers an integrated framework for career development within the Human Resource function. It goes beyond conventional interventions providing an interdisciplinary perspective. The authors explore challenges associated with contemporary careers and how a complication of contextual factors individual attributes and support mechanisms have and will influence career development. As with the previous edition McDonald and Hite bring together the strengths of both theory and practical application offering an integrated framework for career development. New to this edition are Cases to support further reflection and problem solving. Supplementary material for each chapter that includes discussion questions and further resources. An enhanced chapter on ethics and social justice. A concluding chapter which explores ongoing trends to expand the career development conversation. *Career Development* Kimberly McDonald,Linda Hite,2012 [Identity, Meaning, and Subjectivity in Career Development](#) Julie Gedro,2017-07-07 This book closely interrogates the construct of identity and the role it plays in career development. It provides guidance for HRD practitioners and researchers who create career development programs through a typology of different categories of identity such as demographics life events and career histories. The book presents a framework for considering and addressing career development from a critically reflective perspective of identity as a result of choice chance and adaptation. It offers a comprehensive understanding and awareness of tacit nuanced and stigmatized issues that were once shameful but have now become more socially acceptable. As a result HRD practitioners can design programs and resources that have a richness and relevance that might heretofore be lacking. The book also offers guidance for individuals as they take charge of their own identities and career trajectories in an increasingly complex and unpredictable working environment.
