

## Cheer Workout Plan

**GENERAL OVERVIEW:** This plan is a sport specific conditioning plan designed for the female competitive cheerleader. The purpose is to allow for proper training and fitness levels necessary to perform the routines while aiding in the prevention of common injuries associated with cheerleading. All workouts should be preceded by a light warm-up and stretch.

**OBJECTIVE:** The primary objective is on physical and psychological "rejuvenation" with an emphasis on general conditioning. Athletes will focus on increasing their strength and stamina through cardio and weight training work outs. Strength training will focus on the major muscle groups used in stunting, jumping, and tumbling. Flexibility exercises will be added as a final component.

### GOALS:

1. Maintain Cardio & Core Muscle Fitness by exercising at least 2-3 times per week.
2. Rehabilitate existing injuries or weaker injury prone areas.
4. Maintain Flexibility for jumps and flying by stretching EVERY DAY.

**WEIGHT OR RESISTANCE MODIFICATIONS:** An athlete who is used to these activities may find the moves are not intense enough without some form of resistance. In that case it is recommended the athlete use light to medium weights as long as they can still finish the repetitions required. Weights should be increased gradually (every 2-3 weeks).

**OPTION:** If you do not have weights at home you could pick some up at Wal-Mart, Target, Dicks, etc. or get creative and look around your house for weighted objects (canned food, etc.)!
