David Bell, Gill Valentine

Consuming Geographies Consuming Geographies:

Consuming Geographies David Bell, Gill Valentine, 1997 Food occupies a seemingly mundane position in all our lives yet the ways we think about shopping cooking and eating are intensively reflexive and food consumption as a practice impacts on our sense of place **Consuming Geographies** D. Bell, 1997 **The Consuming Geographies of Food** Hillary J.

Shaw, 2014-04-24 The consumption and distribution of food as well as its production has become a major public policy issue over the past few decades what we eat is no longer merely a private matter but carries significant externalities for wider society Its increasing significance within the public arena implies a dissonance regarding the boundaries of food where do we draw the line between food as private and food as public What are the rights of society to impinge upon individual food consumption and what conflicts will ensue when this boundary is disputed The Consuming Geographies of Food explores these multiple issues of food across different regions of the world from the consumer's perspective It uniquely explicates the factors that lead customers towards certain typologies of consumption and towards certain types of retailing offering a comprehensive review of the obesity problem the phenomenon of food deserts and the issue of exclusion from a healthy diet It then considers the effects of food on the consumer the dynamic relationship between food and people and the issue of food exclusion before concluding with possible futures for food consumption from low technology projects to high technology scenarios Based on original research into food access ethics and consumption in both developed and less developed countries this book will be of interest to students researchers and academics in the fields of geography economics hospitality health marketing nutrition and sociology *Food and Culture in Contemporary American Fiction* Lorna Piatti-Farnell, 2011-07-13

Establishing an interdisciplinary connection between Food Studies and American literary scholarship Piatti Farnell investigates the significances of food and eating in American fiction from 1980 to the present day She argues that culturally coded representations of the culinary illuminate contemporary American anxieties about class gender race tradition immigration nationhood and history As she offers a critical analysis of major works of contemporary fiction Piatti Farnell unveils contrasting modes of culinary nostalgia disillusionment and progress that pervasively address the cultural disintegration of local and familiar culinary values in favor of globalized economies of consumption In identifying different incarnations of the American culinary Piatti Farnell covers the depiction of food in specific categories of American fiction and explores how the cultural separation that molds food preferences inevitably challenges the existence of a homogenous American identity The study treads on new grounds since it not only provides the first comprehensive study of food and consumption in contemporary American fiction but also aims to expose interrelated politics of consumption in a variety of authors from different ethnic cultural racial and social backgrounds within the United States Encyclopedia of Consumer Culture Dale Southerton, 2011-09-15 The Encyclopedia of Consumer Culture is the first reference work to outline the parameters of consumer culture and provide a critical scholarly resource on consumption and consumerism Clubbing Ben

Malbon,2002-03-11 Clubbing explores the cultures and spaces of clubbing Divided into three sections Beginnings The Night Out and Reflections Clubbing includes first hand accounts of clubbing experiences framing these accounts within the relevant research and a review of clubbing in late 1990s Britain Malbon particularly focuses on the codes of social interaction among clubbers issues of gender and sexuality the effects of music the role of ecstasy clubbing as a playful act and personal interpretations of clubbing experiences *Leaving China* Wanning Sun,2002-08-15 More than ever before China is on the move When the flow of people and images is fused meanings of self place space community and nation become unstable and contestable This fascinating book explores the ways in which movement within and across the national borders of the PRC has influenced the imagination of the Chinese people both those who remain and those who have left Travelers or no all participate in the production and consumption of images and narratives of travel thus contributing to the formation of transnational subjectivities Wanning Sun offers a fine grained analysis of the significant narrative forms and discursive strategies used in representing transnational space in contemporary China This includes looking at how stay at homes fantasize about faraway or unknown places and how those in the diaspora remember experiences of familiar places She considers the ways in which mobility of people capital and images affects localities through individuals constructions of a sense of place Relatedly the author illustrates how economic social and political forces either facilitate or inhibit the formation of a particular kind of transnational subjectivity
