Machine Learning:

ECML 2005 João Gama,Rui Camacho,Pavel Brazdil,Alípio Jorge,Luís Torgo,2005-11-15 The European Conference on

Machine Learning ECML and the European Conference on Principles and Practice of Knowledge Discovery in Databases PKDD were jointly organized this year for the fifth time in a row after some years of mutual independence before. After Freiburg 2001, Helsinki 2002, Cavtat 2003, and Pisa 2004, Porto received the 16th edition of ECML and the 9th PKDD in October 3-7. Having the two conferences together seems to be working well. 585 different paper submissions were received for both events which maintains the high submission standard of last year. Of these 335 were submitted to ECML only, 220 to PKDD only, and 30 to both. Such a high volume of scientific work required a tremendous effort from Area Chairs, Program Committee members, and some additional reviewers. On average, PC members had 10 papers to evaluate, and Area Chairs had 25 papers to decide upon. We managed to have 3 highly qualified independent reviews per paper with very few exceptions, and one additional overall input from one of the Area Chairs. After the authors' responses and the online discussions for many of the papers, we arrived at the final selection of 40 regular papers for ECML and 35 for PKDD. Besides these 32 others were accepted as short papers for ECML and 35 for PKDD. This represents a joint acceptance rate of around 13% for regular papers and 25% overall. We thank all involved for all the effort with reviewing and selection of papers. Besides the core technical program, ECML and PKDD had 6 invited speakers, 10 workshops, 8 tutorials, and a Knowledge Discovery Challenge.
