

# THE ENTREPRENEUR'S GUIDE TO PRODUCTIVITY

A 5-STEP DAY PLANNER

Focus on "output" rather than "activity" or "input".  
You can do the task, but measure the results to  
see what's really important. That way, time is spent  
on the right activities, processes, and outcomes to  
get the greatest return.

Ask, "What's the most you can do with the time  
you have available? What's the best way to use  
the available time? What's the best way to  
use the available time?"

Eight points.

1. **Set your goals.** Set your goals for the day. Make sure they are  
specific, measurable, and aligned with your  
business and personal goals.
2. **Plan your tasks.** Plan your tasks for the day. Make sure they are  
specific, measurable, and aligned with your  
business and personal goals.
3. **Prioritize your tasks.** Prioritize your tasks for the day. Make sure they are  
specific, measurable, and aligned with your  
business and personal goals.

80% TIME & EFFORT

20% RESULTS

## STEP 3

### FOCUS ON RESULTS.

As an entrepreneur, you're often faced with the reality of competing in a  
marketplace that's saturated with new business activity. That's why  
it's important to focus on results. That way, you can measure your  
progress, identify opportunities, and continue to grow.

#### New business

New business owners often face a lack of resources or new business models.  
But there are many opportunities available for entrepreneurs, including  
new products, new services, and new markets. That's why it's important to  
focus on results. That way, you can measure your progress, identify  
opportunities, and continue to grow.

The Pareto principle, also known as the 80/20 rule, is based on the concept of power law distributions. It states that 80% of the outcomes are produced by 20% of the inputs, and most of the time and effort is spent on 20% of the tasks, which produces 80% of the results.

For entrepreneurs, the 80/20 rule can be used to focus on the most important tasks and activities that drive growth and success.
