- without the need for separate software licenses and the ability to support multiple applications simultaneously.
- Using a single interface to monitor and control all enterprise-wide.
- More efficient and accurate management of enterprise-wide resources and operations.

10. Proactive problem detection and resolution through real-time monitoring and reporting.

- Reduces mean time to resolution (MTTR) by identifying potential problems before they become major issues.
- Reduces the need for manual monitoring and troubleshooting, which can be time-consuming and error-prone.

11. Improved efficiency and cost reduction through automation.

- Automating manual tasks, such as data entry and reporting, can save time and reduce costs.
- Using automation to perform repetitive tasks can free up staff to focus on more complex and strategic work.
