*Gender, Genocide, Gaza and the Book of Esther* Sarojini Nadar, 2025-05-21 *Gender Genocide Gaza and the Book of Esther* bridges the gap between gendered and geopolitical analyses by interrogating both the sexual and ethnic violence embedded in the Book of Esther While much scholarship has examined the potential genocide of the Jews in the narrative far less attention has been paid to the Persian retaliation genocide Framed within decolonial feminist perspectives this book shifts between the harem the royal institution where women were sequestered for the king s use and herem the practice of divinely sanctioned warfare that justifies the extermination of an enemy Rather than operating as discrete forms of violence the book argues that the harem and the herem are co constitutive revealing how gendered and ethnic domination function in tandem Through a combination of narrative inquiry inter textual readings critical discourse analysis and theological assessments of both the biblical text and its contemporary reception *Gender Genocide Gaza and the Book of Esther* invites interpreters to consider the larger frameworks of ethnicity and racialization within which hermeneutics of sexual violence take place A close literary reading of Esther is paired with an analysis of its contemporary geopolitical appropriations particularly its use in Christian Zionist rhetoric The explicit invocation of the Amalekite extermination trope by Israel s prime minister in October 2023 to justify attacks on Gaza underscores the enduring political afterlives of texts of terror This book contends that a feminist reading of Esther cannot limit itself to an analysis of sexual violence but must extend its critique intersectionally engaging with the broader necropolitical economies that structure both ancient and modern deployments of biblical violence

Johnson, 2019-12-12 This book is an examination of characters in the books of Kings showing how understanding and interpretation of key characters affects readings of the story The volume begins with more general pieces addressing how the study of characters can shed light on the composition history of Kings and on how characters and characterization can be considered with respect to ethics particularly with respect to the moral complexity of biblical characters Contributors then consider key characters within the Kings narrative in depth such as Nathan Bathsheba Solomon and Jezebel The contributors use their own specific expertise to analyze these characters and more drawing on insights from literary theory and considering such approaches as questioning our view of a particular character with based on the character within the text with whom we identify Contributors also assess whether or not characters as portrayed in the biblical text necessarily match

What do we mean and what do we understand when we use the five standard race ethnic categories White Black Asian Native American and Hispanic Most federal and state data collection agencies use these terms without explicit attention and thereby create categories of American ethnicity for political purposes Davora Yanow argues that race and ethnicity are socially constructed concepts not objective scientifically grounded variables and do not accurately represent the real world She joins the growing critique of the unreflective use of race and ethnicity in American policymaking through an exploration of how these terms are used in everyday practices Her book is filled with current examples and analyses from a wealth of social institutions health care education criminal justice and government at all levels The questions she raises for society and public policy are endless Yanow maintains that these issues must be addressed explicitly publicly and nationally if we are to make our policy and administrative institutions operate more effectively
