ANSWER

## Mammals

Mammals come in many shapes and sizes. They have hair, very large ears, and the strongest set of teeth. Many can live for many years, but the shortest lives of the animals are just one day. Mammals are different in many ways, but all mammals have a few things in common. All mammals have a backbone. Mammals are the only mammals that have milk to feed their babies. Some mammals, such as bats, fly all of the time in the winter, while others, like polar bears, do not move much at all. The majority of the mammals are warm-blooded, which means their body temperature stays the same, even though they are not exposed to cold air or heat.

Some mammals sleep, like humans and most animals. Some mammals like musical instruments, like a piano, drums, and guitars. Some mammals like animals and people. Other mammals like flowers, and some mammals like people. Some mammals like to eat vegetables. (Vegetables include the carrots and the corn.)
