Teaching Multiplication with Lesson Study Masami Isoda, Raimundo Olfos, 2020-11-23 This open access book is intended to assist teachers teacher trainers curriculum designers editors and authors of textbooks in developing strategies to teach the multiplication of natural numbers based on the experience of the Lesson Study in Japan. This approach to mathematics education dates back to the 1870s and reconciles the emphasis on problem solving with the treatment of the curricular contents. It has gained international recognition since the 1990s and thanks to it mathematics education in Japan has been recognized as one of the most efficient and innovative in the world. This growing international awareness has led to an effort to apply the principles of Lesson Study to other parts of the world and this book shows how experienced authors from Brazil Chile Mexico Spain and Portugal have worked to adapt some of these methods and techniques to the Portuguese and Spanish speaking countries of Ibero America. Drawing on the impact of Lesson Study on government curriculum decisions and teacher behavior in Japanese classrooms offering examples of lessons lesson plans and suggestions for teaching and presenting examples of the good reception of the principles of Lesson Study in Ibero America. Teaching Multiplication with Lesson Study Japanese and Ibero American Theories for Mathematics Education shows how an efficient and cutting edge experience in mathematics education can travel the world and help teachers in many different countries

Teaching to Change the World Jeannie Oakes, Martin Lipton, Lauren Anderson, Jamy Stillman, 2015-11-17 This is an up to the moment engaging multicultural introduction to education and teaching and the challenges and opportunities they present. Together the four authors bring a rich blend of theory and practical application to this groundbreaking text. Jeannie Oakes is a leading education researcher and former director of the UCLA teacher education program. Martin Lipton is an education writer and consultant and has taught in public schools for 31 years. Lauren Anderson and Jamy Stillman are former public school teachers now working as teacher educators. This unique comprehensive foundational text considers the values and politics that pervade the U.S. education system explains the roots of conventional thinking about schooling and teaching asks critical questions about how issues of power and privilege have shaped and continue to shape educational opportunity and presents powerful examples of real teachers working for equity and justice. Taking the position that a hopeful democratic future depends on ensuring that all students learn the text pays particular attention to inequalities associated with race social class language gender and other social categories and explores teachers role in addressing them. The text provides a research based and practical treatment of essential topics and it situates those topics in relation to democratic values issues of diversity and cognitive sociocultural and constructivist perspectives on learning. The text shows how knowledge of education foundations and history can help teachers understand the organization of today's schools the content of contemporary curriculum and the methods of modern teaching. It likewise shows how teachers can use such knowledge when thinking about and responding to headline issues like charter schools vouchers standards testing and bilingual education to name just

a few Central to this text is a belief that schools can and must be places of extraordinary educational quality and institutions in the service of social justice Thus the authors address head on tensions between principles of democratic schooling and competition for always scarce high quality opportunities Woven through the text are the voices of a diverse group of teachers who share their analyses and personal anecdotes concerning what teaching to change the world means and involves Click Here for Book Website Pedagogical Features Digging Deeper sections referenced at the end of each chapter and featured online include supplementary readings and resources from scholars and practitioners who are addressing issues raised in the text Instructor's Manual offers insights about how to teach course content in ways that are consistent with cognitive and sociocultural learning theories culturally diverse pedagogy and authentic assessment New to this Edition *SRA Open Court Reading*, 2002

Free to Learn Lance T. Izumi, Xiaochin Claire Yan, 2005 Charters are by nature different not just from traditional public schools but from one another With their freedom and flexibility some charter schools have opened doors and opportunities for many poor minority children who were previously trapped at failing campuses run by school district bureaucracies These successful charter schools have perfected alternative models of organization management and discipline that shatter the status quo orthodoxy In Free to Learn successful charter principals and teachers who often do things contrary to the public education establishment offer hope and practical advice for the charter movement After Hurricane Katrina Free to Learn served as an inspiration and handbook for charter school administrators in New Orleans
