[Cultural Citizenship and Popular Culture](#) Joke Hermes,2023-09-27 Written in an accessible and engaging style this book uses a series of case studies to show how popular media are important to us as a source of pleasure and entertainment but also in communicating about the world with others Social media platforms have changed how we talk about what we like and dislike in our popular media use Cultural citizenship shows how these discussions speak to belonging to what we feel our rights and responsibilities are in

today's polarized world Cultural Citizenship and Popular Culture is based on audience led research and does not privilege textual analysis as a starting point for taking popular media use as a measure Instead it offers research tools to listen to others This book offers scholars and students of media and creative industries a means to understand their professional position as one in which they engage with rather than assume to know what users of popular cultural texts and products think and feel

Depression Quest GamerGate activists launched a smear campaign against Quinn but attempted to absolve themselves of harassment by rebranding the movement as a game consumer revolt against unethical journalists and leftist academics Almost five years later GamerGate continues to grow in membership on its official subreddit r KotakuInAction which is a self governed community hosted on the popular discussion forum based social media platform Reddit Shortly after r KotakuInAction materialized a conscientious objector created the pro feminist r GamerGhazi to resist GamerGate Despite Reddit s massive user base its 1 2 million subreddits and its ubiquity in American culture it remains an underexplored space in the academic literature Academics have neither adequately addressed Reddit s role in promoting far right communities like r KotakuInAction nor the efficacy of using Reddit as a space for staging feminist resistance to such communities Drawing from feminist epistemology intersectionality and masculinity studies this dissertation investigates r KotakuInAction and r GamerGhazi s use of the Reddit interface most particularly its upvoting and downvoting mechanic to shape debates around feminism and critical race issues in American culture The research is based on data collected over the course of six months from discussion threads on each subreddit subreddit wiki documents and the video game Kingdom Come Deliverance Using a mixed methods approach defined by textual analysis of site commentary and wiki documents visual analysis of each subreddit s aesthetic and a video game text and an analysis of Reddit s user interface and algorithm this dissertation addresses the political tensions and contradictions within and between r KotakuInAction and r GamerGhazi This project concludes that Reddit s design and algorithm make it unlikely for intersectional feminist communities to thrive on the platform
