Legacy Mindset Korey Shaffer, 2024-10-15 We're all broken in some way but broken is not forever. In fact it's just part of the story of how we build our legacies. Entrepreneur and US Marine Korey Shaffer's road through life was tougher than most. After returning from a harrowing tour of duty in Afghanistan and still aching from his troubled childhood and adolescence, Shaffer felt his chance to leave something of value to the world might have passed. But even in despair he knew that many did not return home at all or returned more broken than he was. Determined that the wounded and fallen not be abandoned or forgotten, Shaffer founded the Til Valhalla Project, an organization devoted to honoring the fallen and preventing veteran suicides. Til Valhalla unexpectedly proved to be Shaffer's salvation as well. Sharing intimate details from his square peg childhood, reckless adolescence, brotherhood seeking teen years and traumatic experiences in combat and back home, Shaffer demonstrates that society doesn't dictate who we are or will be; that is up to us. The path to who we can become lies through careful daily exercise of will repetition and affirmation. Shaffer is convinced that the discipline he drew from this struggle can be of use to others. What it takes to overcome the broken state Shaffer contends is a willingness to face pain head on and use adversity as rocket fuel to regain purpose and create resilience. In *Legacy Mindset: Take Charge of Today and Build Extreme Resilience*, Shaffer lays out the sinews and bones of the daily discipline that allowed him to repair what was broken and build upon it. He challenges us to Evaluate whether our pain is constructive or destructive. Reassess what things in life we assign value to. Radically change our daily habits by practicing micro disciplines. Trust our intuition when it is telling us to speak up. Commit to excellence in everything we do even when no one is watching.

Meadows,2015-03-25 Tempted to Give Up Here's How to Keep Going If you browse through the interviews with some of the most successful people on Earth you'll find one common piece of advice shared by virtually all of them They never give up on their big goals Research shows that grit is a better predictor for success than any other factor The ability to keep going despite setbacks is more important than your IQ character or other external factors like your upbringing or surroundings But what does it really mean to never give up What exactly is grit How do you persevere when faced with larger than life difficulties How do you keep going when you're at the brink of exhaustion and all your hard work hasn't been rewarded yet I wrote this book to explore the subject of persistence from a more scientific point of view than cliché self help sayings I want to

share with you how exactly to stick to your goals according to peak performers and science not vague motivational advice that assumes we have unlimited strength once we're motivated enough. Here are just a couple of things you will learn from the book:

- A crucial piece of advice you can learn from the first people who reached the South Pole. If you make the wrong choice you'll burn out guaranteed. What famous American comic Jerry Seinfeld did in his early days of career to keep going. It's a simple trick that provides huge results.
- What a study on top musicians, athletes, actors, and chess players can teach you about achieving results and persistence. The elite performers practice much fewer hours than you believe.
- Five of the most common ways you lead yourself to self-sabotage. Usually, you're not even aware of how many of your efforts go for naught simply because of the five things I discuss in this book.

- Five focusing questions to keep going. Asking yourself these questions will help you boost your motivation when you're at the brink of giving up.
- How listening to others whining makes a part of your brain shrink and affects your ability to persevere when faced with setbacks.
