**Mathematics for Elementary Teachers** Gary L. Musser, Blake E. Peterson, William F. Burger, 2013-09-16 Mathematics for Elementary Teachers 10th Edition Binder Ready Version establishes a solid math foundation for future teachers. Thoroughly revised with a clean engaging design, the new 10th Edition of Musser, Peterson, and Burger's best-selling textbook focuses on one primary goal: helping students develop a deep understanding of mathematical concepts so they can teach with knowledge and confidence. The components in this complete learning program—from the textbook to the e-Manipulative activities to the Children's Videos to the online problem-solving tools resource-rich website and Enhanced WileyPLUS—work in harmony to help achieve this goal. This text is an unbound binder-ready edition. WileyPLUS sold separately from text.

**Math Logic Mysteries** Marilyn L. Rapp Buxton, 2021-09-03 Students love trying to solve challenging puzzles. So why not build and review their math skills while they're having fun? Math Logic Mysteries requires students to complete math problems and use reasoning to unlock the clues needed to solve matrix-based logic problems. Mathematical skills covered include measurement, number operations, geometry, probability, fractions, decimals, percentages, and algebra. This book includes a detailed how-to section for teaching logic puzzles and an in-depth answer key so students can understand the thinking process behind each solution. After doing these fun and challenging puzzles, your students will ask for more Math Logic Mysteries. Grades 5-8.

**Teaching English Through ELA, Mathematics, Science, and Social Studies** Long Peng, 2022-07-21 Accessible and hands-on, this textbook provides a comprehensive introduction to teaching language through content, an approach known as Content-Based Language Teaching (CBLT). A content-based language-focused approach to teaching in the disciplines is essential to serving the language and disciplinary needs of English learners (ELs) in the classroom. Guided by learning standards and informed by research, this book demonstrates how content materials in the English Language Arts (ELA), Mathematics, Science, and Social Studies can be harnessed to develop the English language proficiency of ELs as well as advance their disciplinary knowledge and skills. Using content materials in ELA, Mathematics, Science, and Social Studies as a starting point, this textbook illustrates how to teach English as an additional language effectively by integrating language instruction with disciplinary teaching. It showcases numerous learning and instructional activities complete with targeted language exemplified in sentential and discourse contexts, direct instruction, teacher modeling, guided and individual practices, and assessments, which are further backed up by detailed discussions of their goals, rationales, and implementation. This

textbook also features a discussion of differentiation to address the varied needs of students To further assist readers in determining how to incorporate language instruction Peng identifies extensive possibilities for language teaching that are based on the same content materials and beyond those targeted by sample learning activities Each chapter ends with three types of exercises multiple choice questions open ended discussion questions and problems of application to bolster understanding promote reflection and encourage application Complementing the book are additional online resources including ready to use PowerPoints which are available on the book s webpage at Routledge com 9780367521134 Covering key issues such as characteristics of effective language instruction differentiation and the challenges associated with CBLT this is an essential text in TESOL methods and content area language teaching as well as an invaluable resource for pre service and in service ESL EFL teachers and content area teachers who are interested in furthering their students language and literacy development **California Common Core State Standards** California.
