Descriptive Translation Studies And Beyond Revised Edition Benjamins Translation Library:

Descriptive Translation Studies and Beyond Gideon Toury,1995 A replacement of the author's well known book on Translation Theory In Search of a Theory of Translation 1980 this book makes a case for Descriptive Translation Studies as a scholarly activity as well as a branch of the discipline having immediate consequences for issues of both a theoretical and applied nature Methodological discussions are complemented by an assortment of case studies of various scopes and levels with emphasis on the need to contextualize whatever one sets out to focus on Part One deals with the position of descriptive studies within TS and justifies the author's choice to devote a whole book to the subject Part Two gives a detailed rationale for descriptive studies in translation and serves as a framework for the case studies comprising Part Three Concrete descriptive issues are here tackled within ever growing contexts of a higher level texts and modes of translational behaviour in the appropriate cultural setup textual components in texts and through these texts in cultural constellations Part Four asks the question What is knowledge accumulated through descriptive studies performed within one and the same framework likely to yield in terms of theory and practice This is an excellent book for higher level translation courses

Descriptive Translation Studies - and beyond Gideon Toury,2012-11-21 This is an expanded and slightly revised version of the book of the same title which caused quite a stir when it was first published 1995 It thus reflects an additional step in an ongoing research project which was launched in the 1970s The main objective is to transcend the limitations of using descriptive methods as a mere ancillary tool and place a proper branch of DTS at the very heart of the discipline between the theoretical and the applied branches Throughout the book theoretical and methodological discussions are illustrated by an assortment of case studies the emphasis being on the need to take whatever one wishes to focus on within the contexts which are relevant to it Part One discusses the pivotal position of the descriptive branch within Translation Studies and Part Two then outlines a detailed rationale for that positioning This in turn supplies a framework for the case studies comprising Part Three where a number of exemplary issues are analysed and contextualized texts and modes of translational behaviour are situated in their cultural setting and textual components are related to their texts and then also to the cultural constellations in which they are embedded All this leads to Part Four which asks what the knowledge accumulated through descriptive studies of the kind advocated in the book is likely to yield in terms of both the theoretical and the applied branches of the field All in all an innovative thought provoking book which no one with a keen interest in translation can afford to ignore

LXX Song of Songs and Descriptive Translation Studies Dries De Crom,2019-01-21 Dries De Crom intends to stimulate the cross fertilization of Septuagint Studies and Translation Studies particularly the theoretical framework of Descriptive Translation Studies DTS It engages with concepts and theories from DTS in order to demonstrate their applicability to the study of the Septuagint The aim is not to replace the established methods of Septuagint Studies but rather to show that they are fully compatible with descriptive approaches to translation The greater part of the volume is dedicated to a meticulous verse by

verse comparison between the LXX and MT texts of Song of Songs As there is at present no full critical edition of the Greek texts of Song of Songs due attention is given to the most important witnesses to the pre Hexaplaric text The textual study engages with matters of translation technique textual criticism linguistic interference and the interpretation of LXX Song of Songs On the basis of this textual analysis the volume explores the question of Kaige Theodotion and LXX Song of Songs relation to it as well as the peculiar textual linguistic profile of LXX Songs of Songs against the background of translational norms interference interlanguage and literary code

Beyond Descriptive Translation Studies Anthony Pym, Miriam

Shlesinger, Daniel Simeoni, 2008-03-13 To go beyond the work of a leading intellectual is rarely an unambiguous tribute However when Gideon Toury founded Descriptive Translation Studies as a research based discipline he laid down precisely that intellectual challenge not just to describe translation but to explain it through reference to wider relations That call offers at once a common base an open and multidirectional ambition and many good reasons for unambiguous tribute The authors brought together in this volume include key players in Translation Studies who have responded to Toury's challenge in one way or another Their diverse contributions address issues such as the sociology of translators contemporary changes in intercultural relations the fundamental problem of defining translations the nature of explanation and case studies including pseudotranslation in Renaissance Italy Sherlock Holmes in Turkey and the coffee and sugar economy in Brazil All acknowledge Translation Studies as a research based space for conceptual coherence and creativity all seek to explain as well as describe In this sense we believe that Toury's call has been answered beyond expectations

Style and Context of Old Greek Job Marieke Dhont, 2018-04-17 In *Style and Context of Old Greek Job* Marieke Dhont offers a new understanding of the linguistic and stylistic diversity in the Septuagint corpus. To this end the author innovatively uses Polysystem Theory which has been developed in the field of modern literary studies. After discussing the appropriateness of a systemic approach to understanding Jewish Greek literature the author reflects on the Jewishness of Greek language texts. Dhont then presents a thorough literary analysis of the Old Greek version of the book of Job. On this basis she explains the dynamics that produced the translation of Old Greek Job and its position within the development of a Jewish Greek literary tradition **Construction, Coherence and Connotations** Pierre J. Jordaan, Nicholas P. L. Allen, 2016-08-22 These fourteen selected essays were originally read at the LXXSA international conference Construction Coherence and Connotation in Septuagint Apocryphal and Cognate Literature 28 30

August 2015 hosted by the North West University Potchefstroom South Africa Here the intention was to apply new critical theory and approaches to the fields of Old Testament Scripture as well as associated Apocryphal and Cognate literature with a specific focus on the interrelated recurring theme of the Wisdom of the deity and its decryption and reception at various times in history In this regard it was felt that this theme and associated source texts had been largely overlooked in recent scholarship Here the aim was to attract recent research by both leading national as well as international scholars which not only shed new light on Old Testament Apocrypha and so called Pseudepigraphical literature but which also critically reviewed certain biblical wisdom texts which are foundational for both the Christian as well as Jewish communities As a consequence many of the essays deal with the apocryphal Wisdom of Sirach However important contributions may also be found apropos Micah Daniel Baruch 2 Maccabees Tobit Susanna Judith and the works of Josephus Flavius The Internationality of National Literatures in Either America: British America and the United States, 1770s-1850s ,2000

Traduction Harald Kittel,Juliane House,Brigitte Schultze,2004 This series of HANDBOOKS OF LINGUISTICS AND COMMUNICATION SCIENCE is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction For classic linguistics there appears to be a need for a review of the state of the art which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints while in the more recent branches of communication science the handbooks will give researchers both an overview and orientation Alaya ,2006 Contemporary German Prose in Britain and France (1980-1999) Wiebke Sievers,2007 This case study of the translation of contemporary German literature in Britain and France seeks to address the philosophical and anthropological problem of otherness and to discover its significance for translation theory This work should appeal to scholars interested in German British and French literature translation theory philosophy and sociology central component of the translation process Moreover via disciplines such as philosophy and anthropology otherness in the last two decades has entered Western theories and studies of translation and become an important analytical and normative category in the field of translation studies Nevertheless there is an apparent lack of research considering the concept itself as well as its history and current use in the field and its relevance for the practice of translation the translation theories currently known as foreignizing and shows that some of these draw on the same nationalist agenda that they try to transcend Moreover the ensuing case study proves that current translation practice is still governed by a nationalist assurance of linguistic and cultural differences This book therefore concludes by calling for a change of perspective in the theoretical and practical approaches to translation Translation should no longer be regarded as a means of delimiting our selves from a national other but as a way to uncover the otherness underlying these alleged selves
