Peter Dews, University of Essex. *The Blackwell Companion to Hermeneutics* is a collection of original essays that provides a definitive historical, systematic, authoritative, and critical compendium of philosophical hermeneutics. The volume explores the art and theory of interpretation as it intersects with contemporary philosophical and interdisciplinary schools of thought, including humanism, politics, education, theology, literature, and law. Essays also include cutting-edge discussions of the relation of hermeneutics to the history of philosophy and address the major themes, topics, core concepts, and key figures at the heart of the discipline. The reference features 70 chapters from an international cast of leading and upcoming scholars who offer historically informed, philosophically comprehensive, and critically astute contributions in their individual fields of expertise. In doing so, they identify and enact different aspects of hermeneutical aims and approaches in an attempt to bear witness to both the inherent diversity of hermeneutics and also the constancy and fidelity of its return to history and tradition. Timely and thought-provoking. *The Blackwell Companion to Hermeneutics* is the only comprehensive reference work of its kind and offers a wealth of information for everyone with an interest in hermeneutics.

Some sample syllabi, assignments, and class materials are provided.

Taking Back Philosophy Bryan W. Van Norden, 2017-12-05 Are American colleges and universities failing their students by refusing to teach the philosophical traditions of China, India, Africa, and other non-Western cultures? This biting and provocative critique of American higher education says yes. Even though we live in an increasingly multicultural world, most philosophy departments

stubbornly insist that only Western philosophy is real philosophy and denigrate everything outside the European canon In *Taking Back Philosophy* Bryan W Van Norden lambastes academic philosophy for its Eurocentrism insularity and complicity with nationalism and issues a ringing call to make our educational institutions live up to their cosmopolitan ideals In a cheeky agenda setting and controversial style Van Norden an expert in Chinese philosophy proposes an inclusive multicultural approach to philosophical inquiry He showcases several accessible examples of how Western and Asian thinkers can be brought into productive dialogue demonstrating that philosophy only becomes deeper as it becomes increasingly diverse and pluralistic *Taking Back Philosophy* is at once a manifesto for multicultural education an accessible introduction to Confucian and Buddhist philosophy a critique of the ethnocentrism and anti intellectualism characteristic of much contemporary American politics a defense of the value of philosophy and a liberal arts education and a call to return to the search for the good life that defined philosophy for Confucius Socrates and the Buddha Building on a popular New York Times opinion piece that suggested any philosophy department that fails to teach non Western philosophy should be renamed a Department of European and American Philosophy this book will challenge any student or scholar of philosophy to reconsider what constitutes the love of wisdom

Cartesian Nightmare Peter A. Redpath, 1997 This book challenges the presupposition among professional philosophers that Ren Descartes is the Father of Modern Philosophy It demonstrates by intensive textual analysis of Descartes's *Discourse and Meditations* that he inaugurated a new type of sophistry rather than a new way of conducting philosophy Transcendental Sophistry is a synthesis of Renaissance humanism and Christian theology especially the theology of creation This striking re evaluation of the achievement of Descartes opens the history of Western philosophy to radical reinterpretation

Descartes's Meditations Vere Claiborne Chappell, 1997 This collection of recent articles by leading scholars is designed to illuminate one of the greatest and most influential philosophical books of all time It includes incisive commentary on every major theme and argument in the *Meditations* and will be valuable not only to philosophers but to historians theologians literary scholars and interested general readers Ideal for courses on the history of philosophy and those centered on Descartes specifically this collection of recent articles by leading scholars is designed to illuminate for students one of the greatest and most influential philosophical books of all time It includes incisive commentary on every major theme and argument in *Meditations*

personhood The unconscious including the kind posited by psychoanalysis as well as the form proposed by recent research on the so called adaptive unconscious Free will if we have it and the recent arguments from neuroscience challenging it Self misleading the ways we willfully deceive ourselves and how this relates to empathy peer disagreement implicit bias and intellectual humility Experimental psychology considerations on the automaticity of emotion and other cognitive processes and how they shape us This book is designed to be used in conjunction with the free Know Thyself MOOC massive open online course created through collaboration of the University of Connecticut s Project on Humility and Conviction in Public Life and the University of Edinburgh s Eidyn research centre and hosted on the Coursera platform <https://www.coursera.org/learn/knowthyself> The book is also suitable as a text for interdisciplinary courses in the philosophy of mind or self knowledge and is highly recommended for anyone looking for a short overview of this fascinating topic **An Ancient Quarrel**

Continued Louis Mackey, 2002-03-26 Dissenting from college course messages of philosophy as the normative way to frame truth and literature as the less valid one Mackay U of Texas at Austin apparently argues that their relationship is the deconstruction of their difference Drawing on previously published writings and original essays his analysis includes readings of Aristotle s Metaphysics and Poetics Kant on the fiction of philosophy N Fry s theory of criticism the rhetoric of courtly love and works of the Pynchon family from the Puritan to contemporary eras Annotation copyrighted by Book News Inc Portland OR Global Philosophy of Religion Joseph Runzo, 2001-03 In this fascinating introduction Joseph Runzo presents a uniquely global perspective on the philosophy of religion Covering such key topics as the existence of God and the connection between religion and ethics he addresses the traditional questions as they appear in all the world faiths

Postmodern Philosophy and Law Douglas E. Litowitz, 1997 The author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably Friedrich Nietzsche Michel Foucault Jacques Derrida Francois Lyotard and Richard Rorty He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system Annotation copyrighted by Book News Inc Portland OR
