Tabor,Simcha Jacobovici,2012-02-28 The Jesus Discovery shows how a recent major archeological discovery in Jerusalem is revolutionizing our understanding of Jesus and the earliest years of Christianity The Jesus Discovery is the story of a stunning new discovery that provides the first

physical evidence of Christians in Jerusalem during the time of Jesus and his apostles In 2010 using a specialized robotic camera authors Tabor and Jacobovici explored a previously unexcavated tomb in Jerusalem from around the time of Jesus They made a remarkable discovery two ossuaries or bone boxes one carved with the earliest known image of Jonah the other displaying a reference to resurrection Since the newly discovered ossuaries can be reliably dated to before 70 AD it is possible that whoever was buried in this tomb knew Jesus and heard him preach In addition the newly examined tomb is in close proximity to the so called Jesus Family Tomb and its discovery increases the likelihood that the Jesus Family Tomb is indeed the real tomb of Jesus of Nazareth
