The Alien Invasion (Classic Reprint) W. H. Wilkins, 2017-09-17 Excerpt from *The Alien Invasion* My object in writing this little book has been to collect together in a popular and readable form the main facts connected with the question of destitute immigration. I have endeavoured to set forth as concisely as possible the evils consequent upon our present system and to place before the public the leading arguments in favour of some moderate and judicious restriction of the influx of the destitute and worthless of other countries. In doing so I have studiously avoided identifying this important question with any particular party or any particular creed. It is a matter which concerns the nation as a whole and it is one in which men of all creeds and parties Jew or Christian Liberal or Conservative may unite together for good. The advisability of restricting our present system of unchecked destitute immigration is a matter upon which there exists considerable difference of opinion. In giving expression to my earnest convictions I ask for that same indulgence which I willingly extend to those who may differ from my conclusions. The Alliance Chris G. Wright, 2017-01-30 *The Alliance* lays the groundwork for a 6-volume science fiction series combining both space opera and post-apocalyptic elements of Earth's thrilling journey from dystopia to utopia to interstellar travel and space colonization and the evolution of diverse societies, some human, some not. Across the centuries, all in the shadow of a galactic menace. **SHORT DESCRIPTION** Individuals from different walks of life and regions of the Milky Way go head-to-head with an alien tyrant and his conquest, unaware that they have become pawns of omniscient entities and drawn into an elaborate ploy of universal proportions. **LONG DESCRIPTION** Earth's greatest military powers have been crushed to a shadow of their former glory. Invasion has plagued entire continents, throwing surviving societies into turmoil, famine, disease. Mankind's legacy has been reduced to ruins of rubble and rust. The future seems bleak for the isolated pockets of resistance, and what lurks in the skies will not rest until it has claimed every single one. But all is not lost for the despairing humans. In the infinitude of the universe, there may be hope so long as humans can learn to trust those who claim responsibility for this calamity, who claim their rescue plan will rock the very foundations of both worlds. Nearing extinction, do they have a choice? Salvation rests on the shoulders of two men who are more than what they appear. Ethan Alexander Colt is a resistance fighter, expected to make the ultimate sacrifice; the other is the tormented Cpt Donovan Ford, who must conquer his ghosts and embrace his destiny as a soldier. Outnumbered and outmatched, two species will have to depend on the Conduits' ancient combat suits, once operated by the infamous Scientists. But humans were designed with flaws, and Ethan and Donovan are no different. Will they see beyond their own aspirations and fight for the greater good? Or
