Picture Book Toddlers Media Sensation:

Children's Picture Books about Refugees and Campbell's Monomyth Eseta Tualalelei, Martin Kerby, Margaret Baguley, Alison Bedford, 2025-07-14 This book explores the portrayal of refugee experiences in children's picture books using insights from Joseph Campbell's *The Hero with a Thousand Faces*. Chapter 1 considers this emerging genre of children's literature within its social and educational context and explains how the narratives embedded within these books were examined. Chapter 2 cites key studies in the field of children's picture books about refugees to uncover common narrative arcs, characterisations, themes, and educative value. Remaining chapters detail the three core elements of Campbell's canonical narrative arc to review how the experience of refugees is presented in modern picture books using this familiar narrative structure as a means of exploring a humanitarian issue with overt political overtones. In so doing, the authors employ an innovative means of analysing picture books that deal with refugees by positioning them within a familiar narrative arc that belies the fear of difference they may otherwise represent. *The Big Smallness* Michelle Ann Abate, 2016-02-12 This book is the first full-length critical study to explore the rapidly growing cadre of amateur-authored independently published and niche-market picture books that have been released during the opening decades of the twenty-first century. Emerging from a powerful combination of the ease and affordability of desktop publishing software, the promotional marketing and distribution possibilities allowed by the Internet, and the tremendous national divisiveness over contentious socio-political issues, these texts embody a shift in how narratives for young people are being creatively conceived, materially constructed, and socially consumed in the United States. Abate explores how titles such as *My Parents Open Carry* about gun laws, *It's Just a Plant* about marijuana policy, and *My Beautiful Mommy* about the plastic surgery industry occupy important battle stations in ongoing partisan conflicts while they are simultaneously changing the landscape of American children's literature. The book demonstrates how texts like *Little Zizi* and *Me Tarzan You Jane* mark the advent of not simply a new commercial strategy in texts for young readers; they embody a paradigm shift in the way that narratives are being conceived, constructed, and consumed. Niche-market picture books can be seen as a telling barometer about public perceptions concerning children and the social construction of childhood, as well as the function of narratives for young readers in the twenty-first century. At the same time, these texts reveal compelling new insights about the complex interaction among American print culture, children's reading practices, and consumer capitalism. Amateur-authored self-published and specialty subject titles reveal the way in which children, childhood, and children's literature are both highly political and heavily politicized in the United States. The book will be of interest to scholars and students in the fields of American Studies, children's literature, childhood studies, popular culture, political science, microeconomics, psychology, advertising, book history, education, and gender studies. *Children's Literature* Barbara Stoodt, 1996 *Information, Communication and Engineering* Teen Hang Meen, 2013-02-27 Selected peer-reviewed papers from the 2012 International Conference on
