## **Cdg 14 Relay Manual:**

Electrical Systems and Equipment D.J. Littler, 2014-03-14 Electrical Systems and Equipment is the work of some 50 electrical design specialists in the power engineering field based largely on the work and experience of GDCD's Generation Development and Constructor Division of the CEGB Electrical Branch. The volume describes the design philosophies and techniques of power engineering, the solutions to the large number of design problems encountered and the plant which has been chosen and developed to equip electrical systems both within the different types of new power station and modification tasks at existing stations.
