Laboratory Manual for Science 10 A. K. Raj, Laboratory Manual for Science is a series of five books for classes 6 to 10. These are complimentary to the Science textbooks of the respective classes. The manuals cover a wide range of age-appropriate experiments that give hands-on experience to the students. The experiments help students verify scientific truths and principles and at the same time expose them to the basic tools and techniques used in scientific investigations. Our manuals aim not only to help students better comprehend the scientific concepts taught in their textbooks but also to ignite a scientific quest in their young, inquisitive minds. *Integrated Science Laboratory Manual* Michael J. Addison-Wesley Introduction to Physical Science Michael B. Theoretical knowledge is not sufficient for the overall development of the student's mind. So, in order to enhance the mental skills of the Class 10 children, CBSE has introduced the concept of Science practicals, which develops the overall understanding about the topic. This Class 10 Science Lab Manual strictly follows the CBSE based curriculum and other State Board patterns. Mr. Gopi Chandra Gupta and Mr. Shivam Tiwari are the authors of this Science Lab Manual, which provides complete knowledge of each term concepts and definitions so that students can refer to this manual for overall work. Viva Voce questions given in the Class 10 Science lab manual have experiments that aim to test a student's understanding of the related experiment. Some investigatory projects have also been included in this Science Lab Manual. This Lab Manual has well-labeled diagrams which clearly demonstrate the details of the apparatus that are used, the correct way of handling Laboratory apparatus and perform the experiments methodically. The basic purpose of this Lab Manual is to provide the students with appropriate guidance so that they can easily understand, carry out and document the experiments in the Science Laboratory. The Lab Manual comes with practical lessons followed by lab experiments after each chapter projects and a Notebook for jotting down all the essential information. The aim of this Science Lab Manual is to help Class 10 students to prepare and understand the complex Science concepts through experimental approach by utilizing pedagogically enhanced content of the Lab Manual and with a compact knowledge base for improving their analytical experimental skills and learning abilities. **El-Hi Textbooks and Serials in Print**, 2003 **El-Hi Textbooks & Serials in Print, 2005**
