**Finish Line Mathematics** Continental Press Staff,2014-11-03 Finish Line Mathematics Third Edition is the extra boost students need to reinforce skills and master Common Core based standards Finish Line supplements your core basal program with instruction and practice that are concise and simply presented The workbook is divided into units that parallel the domains in the Common Core State Standards CCSS at grade level Lessons indicate connections to prior knowledge and integrate the Standards for Mathematical Practice The first unit reviews big ideas from the previous grade with four to five topics that are key to new

concepts in the current grade. This feature allows students to refresh their skills in these areas before building on them to learn new ideas. Finish Line uses the gradual release model from teacher led instruction to individual student work in a four part lesson format. Skill Introduction, Focused Instruction, Guided Practice and Independent Practice Units conclude with a review which covers all skills in the unit. The review includes a mix of item types including those found on Common Core based assessments. A glossary features terms that appear in boldface throughout the book. Flashcards are provided for students to practice important ideas, formulas and symbols from the book.

### **Common Core State Standards Transition Tasks for Mathematics, Grade 6**

Walch Education, 2011-04 Supporting students and teachers moving toward Common Core State Standards. The move to Common Core State Math Standards represents two significant transitions for teachers and students. First the new standards identify rigorous mathematics content that often exceeds previous expectations. Second the vision for the Common Core encompasses a series of Mathematical Practices that include skills, processes and attitudes that can only be developed through extensive experience with skillfully facilitated problem solving and effective discourse. To facilitate these TRANSITIONS Walch Education has developed this collection of problem solving tasks that target the new content and embody the new practices. Request a free task. These 15 tasks will help you to infuse existing curriculum with both the content and the practices of the Common Core and support problem based teaching and learning. Each task takes only 20-30 minutes for students to complete with another 10-20 minute debrief to enhance reasoning and communication and to crystallize understanding. For the teacher background information and implementation suggestions, links to relevant resources, content and research, a series of suggested questions to encourage problem solving, reflection and discourse, guiding rather than leading students. For the students a meaningful context that may transcend traditional school subjects, opportunity to collaborate and to grapple with real problem solving.
