Correlating to chapters in Clinical Procedures for the Medical Assistant 10th Edition, this study guide provides additional activities, review questions and exercises designed to prepare you to work as a clinical medical assistant. New is the addition of SimChart for the Medical Office activities that tie into appropriate chapters of the text. In addition, video evaluation activities on the companion Evolve site track your progress and understanding of each procedure. Assignment sheets at the beginning of each chapter indicate the upcoming textbook and study guide assignments and make it easy to prepare for what's coming next. Critical thinking activities utilize realistic situations to help you analyze and apply what you've learned with games, role playing situations, fun crossword puzzles and independent study questions. Pre tests and post tests provide a quick assessment of your knowledge prior to and after you study each chapter. Key term exercises and assessments help in mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate your progress and prepare for the certification examination. Practice for Competency sections include checklist worksheets to use in practicing clinical skills. Practicum activities on the Evolve companion website use worksheets to help you learn how the practicum site functions. NEW: SimChart for the Medical Office SCMO connection ties Elsevier's Educational EHR cases to the appropriate chapters and provides cohesion for the total curriculum solution. NEW: Evaluation of Competency checklists evaluate your performance versus stated objectives and performance standards and include CAAHEP and ABHES standards. NEW: Video evaluation activities allow students to track their understanding of the video procedures.
