*The Irish Contribution to America's Independence (Classic Reprint)* Thomas Hobbs Maginniss Jr,2017-09-18 Excerpt from The Irish Contribution to America's Independence As the Irish were driven from their own country by a system of persecution much more severe than that of which the Puritans complained it is necessary to include in a work of this character some facts of Irish history which account for the large volume of emigration to America in colonial times I am a representative of the very class in Ireland which in an effort to be truthful I am compelled to condemn for their treatment of the main body of the Irish people My ancestors in the male and female lines for many generations have been members of the Episcopal or Anglican church My grandfather was a clergyman of that church in Ireland and his father was mayor of the city of Londonderry at a time when it was perhaps the most anti irish city in Ireland Had I been born and bred in Ireland I should probably have had no opportunity and less inclination to learn the real facts of her history but fifteen years study of Irish genealogies and family histories has provided me with an intimate knowledge of the causes that are the root of Irish hostility to English rule which after all were the basic causes of the American Revolution About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

,1899    **The Nation's First Monument and the Origins of the American Memorial Tradition** Sally Webster,2017-07-05 The commemorative tradition in early American art is given sustained consideration for the first time in Sally Webster's study of public monuments and the construction of an American patronymic tradition Until now no attempt has been made to create a coherent early history of the carved symbolic language of American liberty and independence Establishing as the basis of her discussion the fledgling nation's first monument Jean Jacques Caffi's Monument to General Richard Montgomery commissioned in January of 1776 Webster builds on the themes of commemoration and national

patrimony ultimately positing that like its instruments of government America drew from the Enlightenment and its reverence for the classical past Webster's study is grounded in the political and social worlds of New York City moving chronologically from the 1760s to the 1790s with a concluding chapter considering the monument which lies just east of Ground Zero against the backdrop of 9/11. It is an original contribution to historical scholarship in fields ranging from early American art, sculpture, New York history and the Revolutionary era. A chapter is devoted to the exceptional role of Benjamin Franklin in the commissioning and design of the monument. Webster's study provides a new focus on New York City as the 18th century city in which the European tradition of public commemoration was reconstituted as monuments to liberty's heroes.
