## **Cfcm Study Guide:**

**Certified Federal Contract Manager Study Guide** National Contract Management Association, The CFCM Study Guide is designed to assist candidates in reading the FAR by summarizing each part and highlighting critical definitions and information. It is intended as a detailed study outline of the main topics within each FAR part and includes specific references. The 4th Edition is divided by FAR subchapters A-H. Each subchapter section contains a brief at a glance summary of the FAR parts contained in that subchapter followed by a more in depth summary of each part. The CFCM Study Guide provides references to specific thresholds, limitations, and requirements. Use the citations provided in the guide to find the most up to date thresholds in the FAR. This study guide has been updated to incorporate changes up to and including Federal Acquisition Circular 2021-06. As stated above, CFCM candidates are responsible for updates. Check National Contract Management's website for additional information about what is covered on the CFCM examination. The CFCM Study Guide comes with a full CFCM practice exam at the end of the book as well as an answer key to self-grade your responses. As noted, the questions on the practice exam may resemble those on the examination but were developed independently of the actual exam. Therefore, they are not the actual exam questions. Memorization of the practice exam questions and answers is not sufficient preparation for the examination.

ExamREVIEW, 2012-02-09. In the new CFCM exam syllabus, General Business Knowledge is no longer tested. HOWEVER, taking into account the fact that knowledge on the general business environment would help a lot in your exam study effort, even though the GB module is no longer required, GB related materials are retained in this study guide. For CFCM, FAR is definitely the focus. Still, knowledge on commercial acquisition and contract is essential as it forms the foundation of modern contract management. You should therefore go through the sections on business procurement and commercial contracting in addition to studying FAR. As of the time of this writing, the CFCM exam has 150 questions. The 110 question format is no longer in use. In this study product, we have both contracting specific and business knowledge sections. We label those business knowledge sections as Foundation Knowledge sections. These sections have information that is not on the technical aspect of contracting but is still relevant for day to day contract admin work. For the Federal contract exam, contents keep in mind that special emphasis has always been placed on FAR Parts 12 and 15. Part 4 primarily deals with the policies and procedures relating to the administrative aspects of contract administration such as execution, contractor submitted paper documents, distribution, reporting, retention, and files. The Sept 2012 FAR revisions have been included in this edition.
