Enabling Health Informatics Applications J. Mantas,A. Hasman,M.S. Househ,2015-07-24 Informatics and technology have long been indispensable to the provision of healthcare and their importance continues to grow in this field This book presents the 65 full papers presented at the 13th annual International Conference on Informatics Management and Technology in Healthcare ICIMTH 2015 held in Athens Greece in July 2015 The conference attracts scientists and practitioners from all continents and treats the field of biomedical informatics in a very broad framework examining the research and applications outcomes of informatics from cell to population and covering a number of technologies such as imaging sensors and biomedical equipment as well as management and organizational subjects such as legal and social issues The conference also aims to set research priorities in health informatics This overview of current research and development will be of interest to all those whose work involves the use of biomedical informatics in the planning provision and management of healthcare

Exploring the Mesoamerican Subterranean Realm James E. Brady,Cristina Verdugo,2025-09-01 Exploring the Mesoamerican Subterranean Realm brings together recent work and interpretations on the use of underground cavities by Mesoamerican pre Columbian cultures demonstrating their invaluable cultural purpose Case studies from across the region investigate the ways in which these highly charged points in the sacred landscape were the focus of countless political and religious activities The volume expands the study of caves to focus on the broader realm of subterranean space introducing the concept of the constructed subterranean a space in which the Maya deliberately created sacred landmarks through excavation Chapters critically examine chultuns previously thought to be subterranean storage chambers and sascaberas previously considered mines demonstrating that the traditional archaeological models are deeply flawed A wealth of data on both features is used to envision a new sacred landscape filled with thousands of subterranean sacred landmarks Natural caves are also examined a survey conducted around the ancient site of Yaxchilan considers the obvious importance of large stalagmites set up in the site core as monuments Long distance pilgrimages to these caves fundamentally reevaluates the nature of pilgrimage and reveals an economic and political importance that structured settlement and activities around the pilgrimage sites Finally evidence is analyzed to show that the human bones recovered from Midnight Terror Cave Belize were the result of human sacrifice Dealing equally with the archaeology of both natural and constructed subterranean spaces Exploring the Mesoamerican Subterranean Realm challenges preconceived notions of these spaces and their meanings dramatically shifting the field's focus and extending the understanding of the critical importance of this dark side of archaeology
