Science Fiction, Disruption and Tourism Ian Yeoman, Una McMahon-Beattie, Marianna Sigala, 2021-12-20. This book examines science fiction's theoretical and ontological backgrounds and how science fiction applies to the future of tourism. It recreates and invents the future of tourism in a creative and disruptive manner, reconceptualising tourism through alternative and quantum leap thinking that goes beyond the normative or accepted view of tourism. The chapters focusing on areas such as disruption, sustainability, and technology draw readers into the unknown future of tourism, a future that may be disruptive, dystopian, or utopian. The book brings a new theoretical paradigm to the study of tourism in a post-COVID-19 world and can be used to explore, frame, and even form the future of tourism. It will capture the imagination and inspire readers to address tourism's challenges of tomorrow.

Science Fiction as Legal Imaginary Alex Green, Mitchell Travis, Kieran Tranter, 2024-11-21. This book examines how science fiction informs the legal imagination of technological futures. Science fiction, the contributors to this book argue, is a storehouse of images, tropes, concepts, and memes that inform the legal imagination of the future and, in doing so, generate impetus for change. Specifically, the contributors examine how science fictions imagine human life in space, in the digital, and as formed and negotiated by corporations. They then connect this imaginary to how law should be understood in the present and changed for the future. Across the chapters, there is an urgent sense of the need for law as it has been and as it might become to order and safeguard the future for a multiplicity of vulnerable entities. This book will appeal to scholars and students with interests in law and technology, legal theory, cultural legal studies, and law and the humanities.

Science Fiction, an Illustrated History Sam J. Lundwall, 1978. Masculinities in Contemporary Science-Fiction Television Sara Martín, Michael Pitts, 2025-11-13. Through a comprehensive analysis of popular contemporary science fiction television series, this book underscores the genre's unique potential to both reflect and shape cultural perceptions of masculinity. Each of its essays, written by a host of international contributors, analyses key series ranging from *Firefly* (2002) to *Star Trek: Picard* (2020-23). Employing anti-patriarchal and pro-feminist perspectives, they scrutinize the limited diversity among male characters in science fiction television, shedding light on the underrepresentation of non-heteronormative, non-white, and transmasculine characters while also highlighting notable exceptions such as *Altered Carbon* (2018-20), *Doom Patrol* (2019), and *The Umbrella Academy* (2019). Against the backdrop of current discussions regarding

toxic masculinity this book highlights the ways in which divergent masculinities shape and are shaped by the science fiction genre In doing so it argues the significant role played by the genre in ongoing discourse surrounding traditional and alternative forms of masculinity Modern Utopia and Dystopia in the Novel Never Let Me Go by Kazuo Ishiguro Enikő Jakus,2011-05 Seminar paper from the year 2010 in the subject English Language and Literature Studies Literature grade sehr gut Eotvos Lorand Tudományegyetem language English abstract In this paper as the title says I would like to write about utopian and dystopian elements in the modern contemporary world using a novel from this decade titled Never Let Me Go 1995 by Kazuo Ishiguro The novel highlights some deep problems of humanity around the beginning of the 21st century using a combination of utopia and dystopia On the following pages I present these elements and I also try to interpret them what problems of modern society they reveal and what solutions they might offer **The Scientific World View in Dystopia** Alexandra Aldridge,1984 **Monsters, Mushroom Clouds, and the Cold War** M. Keith Booker,2001 Surveying a wide range of major science fiction novels and films this book focuses on the long 1950s the period from 1946 to 1964 when the tensions of the Cold War were at their peak It demonstrates that these works reflect their historical and political contexts through a consistent concern with such phenomena as alienation and routinization which Marxist critics have seen as central consequences of capitalism Through its engagement with such issues American science fiction of this period reflects the growing hegemony of capitalist ideology and consequently demonstrates the beginnings of postmodernism as a major American cultural phenomenon Twentieth-century Science-fiction Writers Curtis C.
