Have you noticed many people these days are reading books on their phones? It is high time to convert your books to ebooks. The epub format is necessary for your books to be read on smart phones and tablets. Paperback books and Ebooks downloads to computers are not formatted to fit on the small screen space of phones. When I realized that sales of my books had plateaued I began to notice that more people were reading books on their phones than on their computers. The people on the front cover are holding books in their hands but reading a book on their phone. When I converted my books to ebooks my sales skyrocketed. It took me eight weeks of internet searches and failed efforts to learn how to convert my books to ebooks. This step by step guide shows you how precisely how to complete conversion of an existing book to epub format in two hours or less. This guide is written for people like myself who are not programmers and care less about the nuances of programming. Follow the steps and you will save weeks of frustration. Convert your book to epub and celebrate an increase in sales.
