

THE ENTREPRENEUR'S GUIDE TO PRODUCTIVITY

A 5-STEP DAY PLANNER

Focus on "output" rather than "activity" or "input".
You can do the task, but measure the results to
see what's really important. That way, time is spent
on what generates the greatest return.

Ask, "What's the most you can do with the time
you have available? What's the most you can do
with the resources you have?"

Eight points.

1. **Set clear goals.** Set clear, measurable goals for
what you want to accomplish. Make sure
they're specific, measurable, achievable,
relevant, and time-bound.
2. **Prioritize tasks.** Prioritize tasks based on
what's most important. Make sure to

important. Make sure to prioritize tasks based on what's most important.
3. **Establish work boundaries.** Establish work boundaries to
make sure you're not working
when you don't need to.

STEP 3 FOCUS ON RESULTS.

Focus on "output" rather than "activity" or "input".
You can do the task, but measure the results to
see what's really important. That way, time is spent
on what generates the greatest return.

New business milestones.
New business milestones are about 80 percent of new business success.
The more you focus on business milestones and outcomes, the more successful
you'll be. The more you focus on tasks, the more likely you are to feel stressed, less
productive, and less successful.

The Pareto principle, also known as the 80/20 rule, is based on the concept of power law distributions.
It states that 80% of the effects come from 20% of the causes. In business, this means that 80% of the
income and revenue is often from 20% of the customers, and 80% of the work and effort is often from 20%
of the tasks and activities. This can help you focus on the most important 20% of your business.

Focus on "output" rather than "activity" or "input".
You can do the task, but measure the results to
see what's really important. That way, time is spent
on what generates the greatest return.
