Linguistics grade 2 5 University of Rostock Anglistik course The Grammar of English Words language English abstract In this work the author will give a short extract of important theories dedicated to the phenomenon of conversion The author will present the theory of Marchand who believes in conversion as a process of zero derivation In addition to that the theory of metonymical extension by Rene Dirven will be introduced As a contrast the theories of linguists such as Hockett and Koziol will be analysed which see conversion as a state and not as a process They apply to conversion as multifunctionality The author will emphasize conversion as a process and consequently will illustrate a directionality of conversion On the basis of the words mountain and saw of the OED the source word and target word will be detected In order to prove the directionality of conversion their individual semantics by the semantic criteria of Marchand will be analysed At first sight conversion as a linguistic subject seems to be unproblematic and simple On the surface it can be defined as a phenomenon of linguistics in which certain words are created by changing the lexical category of another word with no obvious change of its external form In this way conversion creates verbs from nouns nouns from verbs and even verbs from adjectives However conversion is not as simple as it seems It is a linguistic phenomenon which occurs above all in the English Language There is a high extent of words in English texts which belong to several word classes Even though the phenomenon of conversion has such a high presence within the English language linguists worldwide have not yet found an agreement about its definition Several different and contradictory definitions exist within the literature of linguistics There are various opinions of linguists in which field Conversion should be included
