look at how to save capitalism from itself and from the twin threats of populism and socialism The Washington Post Winner

Handelsblatt Prize for Best Business Book Deep rifts are tearing apart the fabric of the United States and other Western

societies thriving cities versus struggling rural counties the highly skilled elite versus the less educated wealthy versus

developing countries As these divides deepen we have lost the sense of ethical obligation to others that was crucial to the

rise of postwar stability and social democracy So far these rifts have been answered only by the revivalist ideologies of

populism and socialism leading to the seismic upheavals of Trump Brexit and the return of the far right in Germany We have

heard many critiques of capitalism but no one has laid out a realistic way to fix it until now In a passionate and polemical

book world renowned economist Paul Collier outlines brilliantly original and ethical ways of healing these rifts economic

social and cultural with the cool head of pragmatism rather than the fervor of ideological revivalism He reveals how he has

personally lived across these three divides moving from working class Sheffield to hyper competitive Oxford and working

between Britain and Africa and acknowledges some of the failings of his profession Drawing on his own pragmatic realistic

solutions as well as ideas from some of the world s most distinguished social scientists he shows us how to save capitalism

from itself and free ourselves from the intellectual baggage of the twentieth century Rife with inventive proposals Collier s

Capitalism Is Broken And How It Can Be Fixed Donghyun Park,2019-02-25 Dr Donghyun Park is a prominent and rare

economist in Asia who can combine frontline economic theories lively data and real time policy analyses Capitalism in the

21st Century is a masterful book by Dr Park providing a comprehensive understanding of heterogenous trajectories of

economies around the globe and more fundamental mechanisms of the modern capitalistic system This is a must read for

those who are interested in comparative economic systems global economy and international development Yasuyuki

SawadaChief Economist Asian Development BankProfessor of Economics University of Tokyo Donghyun Park makes clear

that capitalism gets a bad rap in large part because of too much emphasis on capital as in financial engineering and too much

emphasis on capitals as in government protectionism Park argues a compelling case that genuine capitalism which is about

entrepreneurship is necessary to solve the big problems most people face around the globe Adam S PosenPresident Peterson

Institute of International EconomicsGlobal capitalism is currently suffering from an unmistakable malaise epitomized by wide

and growing inequality that is eroding popular support for capitalism Such anti capitalist sentiment coupled with a growing

anti globalization mood delivered Brexit in a UK referendum and swept Donald Trump to the US presidency In Capitalism in

the 21st Century internationally well regarded economist Dr Donghyun Park articulately explains why more capitalism is needed to tackle global problems such as climate change and inhumane poverty While defending capitalism against its unfair demonization the author makes a positive case for entrepreneurial capitalism which creates wealth and jobs as well as drives human progress According to the author reforming the financial industry which has become a self serving leviathan and more fundamentally tweaking the economic role of the government which stifles growth promoting entrepreneurship are critical to restoring the vitality of capitalism The book is explicitly written in such a way that the general reader without any background in economics or finance can easily understand it Related Link s *The Decline of Capitalism* Harry Shutt,2005 Should we be more concerned that collapsing share values and widespread corporate failure and fraud beg some serious questions about the viability of the present world economy Harry Shutt persuasively demonstrates that the present crisis is the culmination of 30 years of deepening stagnation Faced with a long term trend of reduced demand for both capital and labor the world economy has only avoided a vast recession through growing reliance on official subsidy and market distortion Shutt points out that regulatory reform can only work by limiting profitability but that a more sustainable model is unacceptable to ruling elites He outlines an agenda for fundamental changes based on the premise that the primacy of private profit is no longer compatible with the priorities of modern democracies *Broken Capitalism* Ferris Eanfar,2017-06-15 Humanity is in trouble This is the only book you ever need to read to understand exactly what is wrong with our global economy today and how to fix it Written by International Political Economy expert and former U S Government Intelligence operative Ferris Eanfar All proceeds go to the nonprofit nonpartisan AngelPay Foundation
