## **Connect Access Card For Human Biology:**

**Connect Access Card Human Biology** Sylvia Mader, 2009-05-29      **Loose Leaf Human Biology w/ Connect Plus Access Card** Sylvia Mader, 2011-06-01

Instructors consistently ask for a human biology textbook that helps students develop an understanding of the main themes of biology while placing the material in the context of the human body. Mader Human Biology was developed to fill this void. Organized around the main themes of biology, Human Biology guides students to think conceptually about biology and the world around them. Just as the levels of biological organization flow from one level to the next, themes and topics of Biology are tied to one another throughout the chapter and between the chapters and parts through the concept of homeostasis. Combined with Dr. Mader's hallmark writing style, exceptional art program, and pedagogical framework, difficult concepts become easier to understand and visualize, allowing students to focus on understanding how the concepts are related.

**Multimedia Integration** Michael Windelspecht represents the new generation of digital authors. Through the integration of multimedia resources such as videos, animations, and MP3 files, and in the design of a new series of interactive animations, Dr. Windelspecht has worked to bring Dr. Mader's texts to the new generation of digital learners. A veteran of the online hybrid and traditional teaching environments, Dr. Windelspecht is well versed in the challenges facing today's students and educators. Dr. Windelspecht has also acted as the subject matter expert on all aspects of the Connect content being prepared for the Mader series of textbooks.

**Connect Plus** ConnectPlus This version of Connect includes the full textbook as an integrated dynamic ebook. ConnectPlus provides all of the Connect features plus the following:

- An integrated printable ebook allowing for anytime anywhere access to the textbook.
- Dynamic links between the problems or questions you assign to your students and the location in the ebook where those problems or questions are covered.
- You can assign fully integrated self study questions.
- Pagination that exactly matches the printed text, allowing students to rely on ConnectPlus as the complete resource for your course.
- Embedded media including animations and videos.
- Customize the text for your students by adding and sharing your own notes and highlights.

**LearnSmart** Bright futures begin with a smarter way to learn. LearnSmart monitors students' learning styles as it teaches and adapts instantly based on their performance. Measure, Assess, and monitor students' levels. Adapt. Provide interactive assessments based on strengths/weaknesses. Empower. Map out a personalized plan for successful learning. Proof. LearnSmart diagnoses students' skill levels to determine what they're good at and where they need help. Then it delivers customized learning content based on their strengths and weakness. The result: students get the help they need right when they need it, instead of getting stuck on lessons or being continually frustrated with stalled progress.

**Probe** How could an effective learning system that diagnoses students' skill levels to determine what they're good at and where they need help? Then it delivers customized learning content based on their strengths and weakness, help level the playing field in your course.
