**The Human Ideology** Valentin Matcas, 2016-04-20 Ideologies are sets of beliefs and ideas determining closely your thinking judgment behavior and social interaction throughout life Ideologies may be religious social political national cultural educational spiritual traditional and scientific And if it ends in ism it is an ideology for certain as capitalism nationalism socialism and communism However all religions and schools of thought are ideologies and most of them do not end in ism Since when you have enclosed sets of beliefs meant to remain highly consistent among themselves and highly exclusive keeping you within while criticizing and attacking the rest then these are ideologies Cults have their own ideologies at their base along with entire regimes and political parties scientific

organizations social hierarchies including hierarchic Brotherhoods and entire nations The major difference between ideological thinking and normal natural thinking is that ideologies restrain your cognition to specific artificial predetermined sets of beliefs for various reasons And this gives ideologies their specific artificial consensual enforced structure as opposed to normal reasoning and normal behavior which remain genuine and unrestricted Since this is the difference between freedom and servitude between the accurate and the consensual and between genuine fulfillment and hierarchic assignments And many times ideologies state upfront that they are based on beliefs and consensus that you have to serve someone or something in that ideology that you have to follow specific rules and beliefs or that you have to state specific oaths and attend specific rituals and ceremonies And so you do for someone remarkable or for your own good or for the good of your own kind but you have to do so exactly as stated in the ideology And sometimes it is good and sometimes dreadful while the other ideologies are always dreadful but not yours While it always upsets you when anyone challenges your ideology in any manner which is another detail defining ideologies consistently Are ideologies good or bad in this world They are certainly good mostly yours since they mean the world to you And they are fake irrelevant and even harmful but the other ideologies never yours And as you already notice it depends on your own perspective while the good and the bad in this world should relate to the world itself If not you end up following your own wellbeing and gratification in this world and throughout life or the wellbeing and gratification of your remarkable authority or of your own kind or of all followers of this ideology but not of the entire world with you included And this is the bad part for the rest of the world because it triggers discrimination exploitation and consequently implicit extermination This is a main characteristic of all remarkable ideologies and this is exactly what harms this world Throughout this book we study ideologies in all details and from all perspectives in order to identify and understand them just to be able to protect yourself and this world from them Because if thoughts can harm you in any manner then ideologies certainly can since they may bring this world to discrimination servitude and totalitarianism as they always do

**Europe in Question** Reginald J. Harrison, 2024-07-31 This book was originally published in 1974 when there were many theories attempting to explain the problems of international political integration This book provides a critical analysis of the theories relating them to relevant hypotheses in politics economic and sociology It treats separately functionalism federalism and contemporary neo functionalism The author offers a number of hypotheses which place more stress on the conflicts inherent in late 20th Century international politics and in the domestic politics of Western European societies Written for postgraduate and undergraduate alike any terminology is carefully explained or used in a self explanatory context

**Whose Welfare?** Steven Michael Teles, 1996 Few American social programs have been more unpopular controversial or costly than Aid to Families with Dependent Children AFDC Its budget now in the tens of billions of dollars has become a prominent target for welfare reformers and outraged citizens Indeed if public opinion ruled AFDC would be discarded entirely and replaced with employment Yet it persists Steven Teles s provocative study reveals why and

tells us what we should do about it Teles argues that over the last thirty years political debate on AFDC has been dominated by an impasse created by what he calls ideological dissensus an enduring conflict between opposing cultural elites that have largely disregarded public opinion Thus he contends one must examine the origins and persistence of elite conflict in order to fully comprehend AFDC s immunity to the reform it truly needs the kind that unites the elements of order equality and individualism central to the American creed One of the first studies to analyze AFDC from a New Democrat position Whose Welfare sheds new light on the controversial role of the courts in AFDC the rise of welfare waivers in the mid 1980s the failure of the Clinton welfare plan and the victory of block granting over policy oriented welfare reform Teles however goes beyond mere critical analysis to advocate specific approaches to reform His thoughtful call for compromise built around the centrality of work individual responsibility and opportunity offers a means for dissolving dissensus and genuine hope for changing an outdated and ineffectual welfare system Based on interviews with participants in the AFDC policymaking process as well as an unparalleled synthesis of the voluminous AFDC literature Whose Welfare will appeal to a wide array of welfare scholars policymakers and citizens eager to better understand the tumultuous history of this problematic program and how it might fare in the wake of the fall elections
