

EYELINER

To apply eyeliner like a pro, the secret way is to get the right tools to achieve sometimes what makes you not progress isn't the technique but the tools.

Once you know what tools are perfect for you, all you need is a bit of practice. For example, hooded eyes need winged eyeliner, and big almond eyes need cat-eye eyeliner, it will change.

The practice will allow you to understand the best eyeliner technique for your eye shape or your clients.

EYESHADOW

The next step in eye makeup. Getting to know your eye shape (be deep-set, wide-set, close-set, round, prominent, downturned, a combination of between those) is important to properly pick the right that way to enhance your natural beauty with a flawless look.

THE BASIC EYESHADOW TECHNIQUE

Now, I'll cover a basic eyeshadow technique that I consider both works well for most eye shapes. It is also perfect for beginners and a great tool for the everyday.

1. Start by applying an eyeshadow primer.
2. Next, take a transition shade and apply it directly to your lid, blending through and go half an inch up from your eye.
3. After that, take a darker but still natural shade like a taupe and with a more precise pencil brush, apply it on the outer 1/3.
4. Next, take a lighter shade and apply it to the inner corner of your eye.
5. To finish, highlight the brow bone and the inner corner of your eye.

It's now up to you how things went your eye to look. If desire for a darker look and build that darkness on the outer corner.

Only Transition

You can mix and match this basic technique with the range of color of your preference, and recreate this look with purple, blue or pink for example.

PREP THE SKIN BEFORE MAKEUP

It is essential to have a skin routine focused on prep for your makeup application to look a beautiful glowing skin.

My go-to skin prep routine is to do before makeup to have flawless skin.

- Soap-free cleanser
- Toner
- Moisturizer
- Face Oil
- Sunscreen

Do you need to do every single step every time you do your makeup?

The ideal way to do this is by doing your regular skincare routine in the morning that already looks like a skincare routine.

And if you don't regularly apply face oil, a lighter moisturizer can be used to give the skin moisture.

Make an oil lock all the previous products applied on the face.

And it works as a base for your makeup.

Sunscreen is an essential step that we don't want to skip, even during the winter season.

The only exception is when we are doing makeup for night events.

We don't want to use sunscreen because it can make our face look white or photos taken with flash.

The very next step, it's going to be for Primer. Make sure to use a primer according to your skin type.

Enhancers

How to do eyeshadow depends on your natural eye shape, but every face shape can't use a thicker eyeshadow. Another an upward eyeshadow, but you can add a little bit of shadow to your eyeliner to make your face shape that's for sure.

Which Eyeshadow Shape is Best?

First look at your natural eye shape, how angled it is, how close or far apart.

The next step is to look at your eye shape, how close or far apart, how close or far apart, how close or far apart.

What to avoid on eyeshadow makeup?

- Very dark eyeshadow
- Very thin brush
- Very defined eyebrows
- Round eyebrows
- Powder

What to use for eyeshadow makeup?

- Fine powder and a very thin brush
- Fine concealer for a soft-focus effect
- Colored eyeshadow gel

Create little brow holes in the area where you may have holes, blend it well, use it with brow gel, and clean the brow bone with concealer.

The right shade for you.

There is a straightforward trick to identify your skin tone very quickly.

Find the natural light of the sun, and look at your arm, looking for your veins.

All the veins in humans are blue, but the skin tone is that it will give the final color to what we can see on our skin.

So if your veins are blue and your skin has a yellow-orange undertone, your veins will have to look greenish.

If you find your veins are purple and blue, you have a pink undertone, blue and pink form the purple color.

In general, the perfect foundation shade for you is a shade similar to your skin tone with the same undertone.

PRO TIP: Warm your foundation first with your fingers before applying it to your face to activate it and get better results on the skin.

Concealer

The step is crucial to get more coverage, especially the dark under-eye area.

Use 1 or 2 drops of liquid concealer on the under-eye area and blend it out with your fingers.

Blend the concealer and foundation together as they both are used to correct facial imperfections, but there are a few key differences between the two.

- **Thickness:** Concealer is formulated to be thicker than foundation.
- **Blendability:** Concealer is designed to be more blendable than foundation, so you can use it to correct imperfections that foundation can't cover.
- **High-coverage:** High-coverage concealer is designed to be more opaque than foundation, which means it is best to blend it into the problem area of your face.
- **Color:** Concealer has a wider range of colors than foundation, so you can use it to correct imperfections that foundation can't cover.

Concealer Shade

Concealer should be lighter than your foundation only if you are applying it to bring light to certain areas like under the eyes, chin, inside of your forehead, etc.

If you are trying to cover imperfections on the rest of the face, opt for a concealer in a similar shade as your foundation instead.

Concealer comes in different formulas such as cream concealer, pencil concealer, and the most popular one, liquid concealer.
