Cosmigraphics:

Cosmigraphics Michael Benson, 2014-10-14 Visual history of the discovery of the universe told through illustrations maps diagrams speculative works of representation and data visualizations *Visions of the Tallgrass* James P. Ronda, 2018-09-13 In centuries long past a vast swath of grassland swept down the center of North America from Canada's Prairie Provinces to central Texas This once plentiful prairie has now all but disappeared Humans have grazed mowed and plowed the plains dammed the rivers and imposed their will on the land and its creatures Fortunately some remnants have survived including the Joseph H Williams Tallgrass Prairie Preserve in northeastern Oklahoma In this visually stunning volume wildlife photographer Harvey Payne and historian James P Ronda offer an intimate look at and into one of America's Last Great Places Spanning nearly 40 000 acres in Oklahoma's Osage County the Preserve is a living witness to a world that once existed But the Osage prairie is not a museum or theme park and it is not frozen in time Under the stewardship of The Nature Conservancy which has overseen its restoration the Preserve lives on as a fully functioning ecosystem And for twenty five years Payne and Ronda have explored these lands together and in solitude Rendered here in brilliant color and paired with Ronda's informative yet deeply personal commentary Payne's photographs open our eyes to the ever changing world of the Tallgrass Preserve In chapters focused on grass sky birds bison and fire Ronda and Payne reveal that the Big Empty is in fact teeming with life Through interwoven images and words *Visions of the Tallgrass* shows that our nation's grasslands are sacred ground a priceless piece of our American past and future **Unveiling Galaxies** Jean-René Roy, 2018 A thought provoking study of the powerful impact of images in guiding astronomers understanding of galaxies through time **From Modes to Keys in Early Modern Music Theory** Michael R. English belief of the Middle Ages in ships that sailed a sea above the clouds 16th century German UFO sightings and the Edwardian aristocrat who mistakenly mapped alien made canals on the surface of Mars As the intricacies of our universe are today being revealed with unprecedented clarity there has never been a better time for a highly readable book as beautiful as the night sky to contextualise the scale of these achievements for the general reader **Writing Life Writing** Paul

Eakin,2020-07-02 Why do we endlessly tell the stories of our lives And why do others pay attention when we do The essays collected here address these questions focusing on three different but interrelated dimensions of life writing The first section Narrative argues that narrative is not only a literary form but also a social and cultural practice and finally a mode of cognition and an expression of our most basic physiology The next section Life Writing Historical Forms makes the case for the historical value of the subjectivity recorded in ego documents The essays in the final section Autobiography Now identify primary motives for engaging in self narration in an age characterized by digital media and quantum cosmology To Know
