Cost Management A Strategic Emphasis 6th Edition:

Cost Management Edward Blocher, Kung H. Chen, W. Thomas Lin, 2002 This textbook offers strategic management topics in conjunction with traditional cost accounting material. Over the last decade much research has been published that redefines the role of the cost accountant within the organization. This research suggests that firms today are looking for accountants who understand the needs of management and can provide input in decision making. The authors include discussions about strategy and decision making as well as research from prominent professionals such as Michael Porter and John Shank.
