*Courageous Women of the American Frontier* Kathleen Shelby Boyett, 2015-11-25 This volume includes a reprint of PIONEER MOTHERS OF THE WEST OR DARING AND HEROIC DEEDS OF AMERICAN WOMEN COMPRISING THRILLING EXAMPLES OF COURAGE FORTITUDE DEVOTEDNESS AND SELF SACRIFICE written by John Frost in 1875 This book reveals the European white settlers viewpoint of the American frontier in the 1700s and early 1800s Then editor of the present volume presents a different voice that of a Native American woman with an understandably different viewpoint in LIFE AMONG THE PAIUTES THEIR WRONGS AND CLAIMS written by Sarah Winnemucca Hopkins in 1882 Sarah Winnemucca is credited with having published the first known autobiography written by a Native American woman Raised for two years in a white home Sarah learned the English language and something of the English culture She later worked as an interpreter and assistant teacher for her people on the reservation and then served as a translator scout and messenger for the U S Army Sarah even lectured across California and Nevada on the plight of her people and her book was a part of this effort As Frost said in the introduction to his book The heroic deeds of these noble American women who first confronted the dangers of the western wilderness are full of instruction They teach us what women are capable of they show us how dearly the blessings we now enjoy were purchased by those who went before us in the march of ages they furnish abundant themes for meditation and study in the mysteries of human character and they present to us by the strong contrast of past times with the present occasion for thankfulness Our women of the present age may be heroines no doubt in another way and the occasions for self sacrifice and noble generosity will still present themselves and still be heroically met But the original Heroines of the West will always maintain their unrivalled place in the annals of our country illustrious revered and alone in their glory

**Promised Lands** David M. Wrobel, 2002 Whether seen as a land of opportunity or as paradise lost the American West took shape in the nation's imagination with the help of those who wrote about it but two groups who did much to shape that perception are often overlooked today Promoters trying to lure settlers and investors to the West insisted that the frontier had already been tamed that the only frontiers remaining were those of opportunity Through posters pamphlets newspaper articles and other printed pieces these boosters literally imagined places into existence by depicting backwater areas as settled culturally developed regions where newcomers would find none of the hardships associated with frontier life Quick on their heels some of the West's original settlers had begun publishing their reminiscences in books and periodicals and banding together in pioneer societies to sustain their conception of frontier heritage Their selective memory focused on the savage wilderness they had tamed exaggerating the past every bit as much as promoters exaggerated the present Although they are generally seen today as unscrupulous charlatans and tellers of tall tales David Wrobel reveals that these promoters and reminiscers were more significant than their detractors have suggested By exploring the vast literature produced by these individuals from the end of the Civil War through the 1920s he clarifies the pivotal impact of their works

on our vision of both the historic and mythic West. In examining their role in forging both sense of place within the West and the nation's sense of the West as a place Wrobel shows that these works were vital to the process of identity formation among westerners themselves and to the construction of a West in the national imagination. Wrobel also sheds light on the often elitist sometimes racist legacies of both groups through their characterizations of Native Americans African Americans Mexican Americans and Asian Americans. In the era Wrobel examines promoters painted the future of each western place as if it were already present while the old timers preserved the past as if it were still present. But as he also demonstrates that West has not really changed much promoters still tout its promise while old timers still try to preserve their selective memories. Even relatively recent western residents still tap into the region's mythic pioneer heritage as they form their attachments to place. Promised Lands shows us that the West may well move into the twenty first century but our images of it are forever rooted in the nineteenth.

*Growing Girls* Susan A Miller, 2007-07-20 In the early years of the twentieth century Americans began to recognize adolescence as a developmental phase distinct from both childhood and adulthood. This awareness however came fraught with anxiety about the debilitating effects of modern life on adolescents of both sexes. For boys competitive sports as well as primitive outdoor activities offered by fledgling organizations such as the Boy Scouts would enable them to combat the effeminacy of an overly civilized society. But for girls the remedy wasn't quite so clear. Surprisingly the girl problem a crisis caused by the transition from a sheltered family centered Victorian childhood to modern adolescence where self control and a strong democratic spirit were required of reliable citizens was also solved by way of traditionally masculine adventurous outdoor activities as practiced by the Girl Scouts the Camp Fire Girls and many other similar organizations. Susan A Miller explores these girls organizations that sprung up in the first half of the twentieth century from a socio historical perspective showing how the notions of uniform identity civic duty primitive domesticity and fitness shaped the formation of the modern girl.

West Border Road offers an interdisciplinary analysis of contemporary Canadian manifestations of three American genres the western the border and the road. Katherine Ann Roberts calls upon canonical works in Canadian studies theories of genre and a wide range of scholarship from border studies cultural studies and film studies to examine how genre is appropriated and sometimes reworked and how these cultural narratives engage with discourses of contemporary Canadian nationhood. The author elucidates Guy Vanderhaeghe's rewriting of the codes of the historical western to include the trauma of Aboriginal peoples.
