Court of Protection Handbook Alex Ruck Keene,Kate Edwards,Katharine Jane Louise Edwards,Anselm Eldergill,Nicola Mackintosh (QC),Sophy Miles,2019-07     *Assessment of Mental Capacity* The British Medical Association,2015-12-08

Doctors lawyers and other professionals often need to make an assessment of a person's mental capacity. This book helps to support these professionals by giving them a fuller understanding of the law in all situations where an assessment of capacity may be needed. Clarifying the roles of professionals and providing an aid to communication both between them and with the person being assessed. Written by experts from a variety of disciplines, *Assessment of Mental Capacity* combines a precise statement of the law with a practical, jargon-free approach to provide guidelines on a range of issues from capacity to form intimate personal relationships to capacity to consent to medical treatment. The fourth edition has been updated and expanded to take account of recent case law and current good practice revision of the Mental Health Act 1983 Code of Practice, the rising prominence of the United Nations Convention on the Rights of Persons with Disabilities. It provides an essential source of guidelines and information including extracts from Mental Capacity Act 2005 and the Code of Practice and is an indispensable tool for health and legal professionals.

**Is Law Computable?** Simon Deakin,Christopher Markou,2020-11-26 What does computable law mean for the autonomy, authority and legitimacy of the legal system? Are we witnessing a shift from Rule of Law to a new Rule of Technology? Should we even build these things in the first place? This unique volume collects original papers by a group of leading international scholars to address some of the fascinating questions raised by the encroachment of Artificial Intelligence AI into more aspects of legal process, administration and culture. Weighing near term benefits against the longer term and potentially path dependent implications of replacing human legal authority with computational systems, this volume pushes back against the more uncritical accounts of AI in law and the eagerness of scholars, governments and LegalTech developers to overlook the more fundamental and perhaps bigger picture ramifications of computable law. With contributions by Simon Deakin, Christopher Markou, Mireille Hildebrandt, Roger Brownsword, Sylvie Delacroix, Lyria Bennet, Moses Ryan, Abbott, Jennifer Cobbe, Lily Hands, John Morison, Alex Sarch and Dilan Thampapillai, as well as a foreword from Frank Pasquale.

**Safeguarding Adults** Lee-Ann Fenge,Sally Lee,Keith Brown,2017-05-08 Provides busy social work and health care practitioners with an accessible guide to adult safeguarding in the context of mental capacity and financial abuse. Drawing on evidence and contemporary examples from practice, this book will help readers understand the new landscape of safeguarding adults since the implementation of the Care Act 2014 and the introduction of Adult Safeguarding Boards. There are chapters on the current political landscape of adult social work, specific issues and contexts that make people vulnerable, social isolation, mental capacity, dementia and important methods of assessment and intervention. A range of pedagogical features are also used to aid learning and understanding, including the use of case studies, reflection points, brief exercises and further reading.
