Covering America A Narrative History Of A Nations Journalism:

Covering America Christopher B. Daly, 2012 A lively history of American journalism from the colonial era to the present day

Media Nation Bruce J. Schulman, Julian E. Zelizer, 2017-01-16 From the creation of newspapers with national reach in the late nineteenth century to the lightning fast dispatches and debates of today's Internet the media have played an enormous role in modern American politics Scholars of political history universally concede the importance of this relationship yet have devoted scant attention to its development during the past century Even as mass media have largely replaced party organizations as the main vehicles through which politicians communicate with and mobilize citizens little historical scholarship traces the institutional changes political organizations and media structures that underlay this momentous shift With *Media Nation* editors Bruce J Schulman and Julian E Zelizer seek to bring the media back to the center of scholarship on the history of the United States since the Progressive Era The book's revealing case studies examine key moments and questions within the evolution of the media from the early days of print news through the era of television and the Internet including battles over press freedom in the early twentieth century the social and cultural history of news reporters at the height of the Cold War and the U S government's abandonment of the Fairness Doctrine and the consequent impact on news production among others Although they cover a diverse array of subjects the book's contributors cohere around several critical ideas including how elites interact with media how key policy changes shaped media and how media institutions play an important role in shaping society's power structure Highlighting some of the most exciting voices in media and political history *Media Nation* is a field shaping volume that offers fresh perspectives on the role of mass media in the evolution of modern American politics Contributors Kathryn Cramer Brownell David Greenberg Julia Guarneri Nicole Hemmer Richard R John Sam Lebovic Kevin Lerner Kathryn J McGarr Matthew Pressman Emilie Raymond Michael Schudson Bruce J Schulman Julian E Zelizer

A Century of Repression Ralph Engelman, Carey Shenkman, 2022-10-04 A Century of Repression offers an unprecedented and panoramic history of the use of the Espionage Act of 1917 as the most important yet least understood law threatening freedom of the press in modern American history It details government use of the Act to control information about U S military and foreign policy during the two World Wars the Cold War and the War on Terror The Act has provided cover for the settling of political scores illegal break ins and prosecutorial misconduct

Recasting History Monica MacDonald, 2019-06-15 Since 1952 CBC television has played a unique role as the primary mass media purveyor of Canadian history Yet until now there have been no comprehensive accounts of Canadian history on television Monica MacDonald takes us behind the scenes of the major documentaries and docudramas broadcast on the CBC including in *Explorations* 1956-64 and the series *Images of Canada* 1972-76 *The National Dream* 1974 *The Valour and the Horror* 1992 and *Canada A People's History* 2000-02 Drawing on a wide range of sources MacDonald explores how producers struggled to represent the Canadian past under a range of external and internal pressures Despite dramatic shifts in the writing of history

over this period she determines that television themes and interpretations largely remained the same. The greater change was in the production and presentation particularly in the role of professional historians as journalists emerged not only as the new producers of Canadian history on CBC television but also as the new content authorities. A critique of public history through the lens of political economy *Recasting History* reveals the conflicts, compromises and controversies that have shaped the CBC version of the Canadian past. *City of Newsmen* Kathryn J. McGarr, 2022-11-15. An inside look at how midcentury DC journalists silenced their own skepticism and shaped public perceptions of the Cold War. A vivid, deeply researched account that presents the elite political press corps back then in a much more favorable light as a highly professional group whose members were also highly constrained by the blindneses that were pervasive in that time, place and culture. Nicholas Lemann, staff writer for *The New Yorker*. Americans' current trust in journalists is at a dismayingly low ebb, particularly on the subject of national and international politics. For some it might be tempting to look back to the mid-twentieth century when the nation's press corps was a seemingly venerable and monolithic institution that conveyed the official line from Washington with nary a glint of anti-patriotic cynicism. As Kathryn McGarr's *City of Newsmen* shows, however, the real story of what Cold War era journalists did and how they did it wasn't exactly the one you'd find in the morning papers. *City of Newsmen* explores foreign policy journalism in Washington during and after World War II, a time supposedly defined by the press's blind patriotism and groupthink. McGarr reveals though that DC reporters then were deeply cynical about government sources and their motives but kept their doubts to themselves for professional, social and ideological reasons. The alliance and rivalries among these reporters constituted a world of debts and loyalties, shared memories of harrowing wartime experiences, shared frustrations with government censorship and information programs, shared antagonisms and shared mentors. McGarr ventures into the back hallways and private clubs of the 1940s and 1950s to show how white male reporters suppressed their skepticism to build one of the most powerful and enduring constructed realities in recent US history: the Washington Cold War consensus. Though by the 1960s this set of reporters was seen as unduly complicit with the government failing to openly critique the decisions and worldviews that led to disasters like the Vietnam War, McGarr shows how self-aware these reporters were as they negotiated for access, prominence and yes, the truth, even as they denied those things to their readers. A riveting account and an original analysis of Washington's midcentury foreign policy press corps, deftly incorporating analyses of gender, race and religion. McGarr's skillful portrayals of historical personalities placed within rich historical contexts provides a compelling narrative. Estelle B. Freedman, author of *Redefining Rape: Sexual Violence in the Era of Suffrage and Segregation*. **Directory of Distance Learning Opportunities** Modoc Press, Inc., 2003-02-28. This book provides an overview of current K-12 courses and programs offered in the United States as correspondence study or via such electronic delivery systems as satellite cable or the Internet. Journalists and Confidential Sources Joseph M Fernandez,2020-11-23 *Journalists and Confidential Sources* explores the fraught and widespread reliance by journalists on anonymous sources whistleblowers and others to whom they owe an obligation of confidentiality It examines the difficulties afflicting such relationships analyses the deteriorating right to know and freedom of expression frameworks and explores solutions and reforms The book discusses key Australian and international source protection ethics rules statutes court cases law enforcement actions and case studies It highlights weakness in journalists professional practice codes governing confidentiality obligations discusses inadequate journalistic appreciation of the importance of establishing clear terms and conditions underpinning confidentiality obligations and identifies shortcomings in the law governing source protection The book argues that despite source protection being widely recognised as an important ideal source protection is under sustained assault thereby undermining public access to information and democracy itself The work focusses on Australia but takes into account source protection in the United Kingdom the United States Canada and New Zealand This timely contribution to the global discussion on the subject will greatly interest journalists scholars educators and students especially in the areas of media law and policy journalism media and communication studies and public relations the legal fraternity and anyone who communicates with journalists
