Defending Identity Its Indispensable Role In Protecting Democracy:

Defending Identity Andrew A. Rooney, Natan Sharansky, 2010-10 Who is better prepared to confront challenges and defend principles in a volatile modern world Those with strong national religious ethnic or tribal identities who accept democracy or democrats who renounce identity as a kind of divisive prejudice Natan Sharansky building on his personal experience as a dissident argues that valueless cosmopolitanism even in democracies is dangerous Better to have hostile identities framed by democracy than democrats indifferent to identity In a vigorous insightful challenge to the left and right alike Natan Sharansky as he has proved repeatedly is at the leading edge of the issues that frame our times *Defending Identity* Natan Sharansky, 2008-06-03 Who is better prepared to confront challenges and defend principles in a volatile modern world Those with strong national religious ethnic or tribal identities who accept democracy or democrats who renounce identity as a kind of divisive prejudice Natan Sharansky building on his personal experience as a dissident argues that valueless cosmopolitanism even in democracies is dangerous Better to have hostile identities framed by democracy than democrats indifferent to identity In a vigorous insightful challenge to the left and right alike Natan Sharansky as he has proved repeatedly is at the leading edge of the issues that frame our times Theology of the Hebrew Bible, Volume 2 Soo Kim Sweeney, David Frankel, Marvin A. Sweeney, 2024-10-18 This follow up to Theology of the Hebrew Bible Volume 1 Methodological Studies focuses on readers engagement with the text and their communities Part 1 offers fresh interpretations of divine images and theological concepts drawn from various theophanies in the text Part 2 focuses on how these insights can form new overarching structures serving as reading strategies or foundations for alternative theologies Part 3 emphasizes the bond between readers and their communities highlighting the active participation of both ancient and modern readers through an analysis of past literature Contributors each an expert in their field include Rachel Adelman Samuel E Balentine Shelly L Birdsong Ginny Brewer Boydston Johanna Etzberger Frances Flannery David Frankel Barry R Huff Hyun Chul Paul Kim Barbara Leung Lai J Richard Middleton Hye Kyung Park Kris Sonek Brent A Strawn David E S Stein Marvin A Sweeney Soo Kim Sweeney Joseph Sykora Daniel C Timmer and Beat Weber This collection of essays guides readers including those well versed in theology to explore innovative and unexpected depictions of divine beings and how human characters respond to them The Jewish Odyssey of George Eliot Gertrude Himmelfarb, 2009 Provocation to readers and critics alike *Shakespeare and Faulkner* Karl F. Zender, 2021-06-02 Shakespeare and Faulkner explores the moral and ethical dilemmas that characters face inside themselves and in their interactions with others in the works of these two famed authors Karl F Zender s characterological study offers insightful critically rigorous and at times quite personal analyses of the complicated figures who inhabit several major Shakespeare plays and Faulkner novels The two parts of this book the first of which focuses on the English playwright the second on the Mississippi novelist share a common methodology in that they originate in Zender s history as a teacher of and writer on the two authors who until now he generally

approached separately He emphasizes the evolving insights gleaned from reading these authors over several decades situating their texts in relation to shifting trends in criticism and highlighting the contemporary relevance of their works The final chapter an extended discussion of Faulkner's *Intruder in the Dust* attempts something unusual in Zender's critical practice It relies less on the close textual analysis that characterizes his previous work and instead explores the intersections between events depicted in the novel and his own life both as a child and as an adult Shakespeare and Faulkner speaks to the power of literature as a form of pleasure and of solace With this work of engaged and thoughtful scholarly criticism Zender reveals the centrality of storytelling to human beings efforts to make sense both of their journey through life and of the circumstances in which they live

Never Alone Natan Sharansky, Gil Troy, 2020-09-01 A classic account of courage integrity and most of all belonging In 1977 Natan Sharansky a leading activist in the democratic dissident movement in the Soviet Union and the movement for free Jewish emigration was arrested by the KGB He spent nine years as a political prisoner convicted of treason against the state Every day Sharansky fought for individual freedom in the face of overt tyranny a struggle that would come to define the rest of his life *Never Alone* reveals how Sharansky's years in prison many spent in harsh solitary confinement prepared him for a very public life after his release As an Israeli politician and the head of the Jewish Agency Sharansky brought extraordinary moral clarity and uncompromising often uncomfortable honesty His story is suffused with reflections from his time as a political prisoner from his seat at the table as history unfolded in Israel and the Middle East and from his passionate efforts to unite the Jewish people Written with frankness affection and humor the book offers us profound insights from a man who embraced the essential human struggle to find his own voice his own faith and the people to whom he could belong

History of the Future Max Singer, 2011-07-16 *History of the Future* presents a set of ideas about where we are in history It focuses on the great majority of people in each society and shows that life in the modern world will be almost completely different from all previous human experience The present time is best understood as a period of transition during which one country after another is following along parallel paths from traditional to modern The process of becoming modern is so powerful that it will have similar effects on all countries Therefore one can predict the future of countries still undergoing this change by looking at the history of countries which have already completed their transition Singer asserts that a war system has long existed in which the central concern of nations has been to protect their security by military forces and alliances He makes the dramatic claim that because of the inherent nature of modern countries there will be no war system in any region populated solely by modern countries as illustrated by the current situation in Western Europe even though human character will not have improved However despite the fact that poverty tyranny and war will be largely eliminated the modern world may be worse for people than the traditional world because most of the things that shaped human character will be obsolete

The Gulf Cooperation Council States Yousef Khalifa Al-Yousef, 2017-02-27 Since the oil boom of the 1970s the Gulf Cooperation Council States have attempted to achieve

economic stability and realise their development goals Such efforts have so far been in vain however as these states autocratic governments have closed off their political systems with the support of international allies especially the United States In this timely and exhaustive analysis of the political economies of the GCC since the 1970s to the present Yousef Khalifa Al Yousef examines the factors responsible for the failure of the states to achieve lasting change in development and security Focusing on institutional structures where oil wealth has been confined to the few and the consequences of failed legitimacy at home that has led to dependence on foreign powers Al Yousef charts the consistent disparities between governance and the needs of the local population to the detriment of genuine development Al Yousef concludes that the only way to ensure stability and growth in the region is to dismantle the alliance of autocracy oil and foreign powers Instead democracy and reform are key to ensuring stability in the region
