**World Regional Geography** Lydia Mihelic Pulsipher, Alex Pulsipher, Holly M. Hapke, 2005-01-05 The scale of this book encompasses vast continents and global forces, but often its descriptive focus on individual lives has the most impact. Stories of people and families make the study of geography compelling. Students begin to grasp the complex patterns at work in the world today as they see how people are affected by and respond to economic, social, and political processes. Through these stories of individual lives, the authors hope to convey the impact of globalization, a major theme of the text. To highlight global to local and interregional connections, the text includes a number of topics that have no borders: the war on terrorism, realignments in the global political order, interregional trade, the global economy, popular culture, the environment, and the Internet. Here again, the focus on the individual person provides insight, offering local perspectives on these global trends. Preface
