Excellent coverage essential to worldwide bibliographic coverage American Reference Books Annual This comprehensive reference provides current finding ordering information on more than 123 000 in print books published in Australia You ll also find brief profiles of more than 12 000 publishers distributors whose titles are represented as well as information on trade associations local agents of overseas publishers literary awards more From Thorpe

**El-Hi Textbooks in Print**, 1976      Scientific and Technical Books and Serials in Print, 1984      Outdoor Lighting: Physics, Vision and Perception Duco Schreuder, 2008-08-15 The present book is based on the experience of the author The experience is mainly the result of years of research of consulting work and in participation in policy decision making in many fields most but not all related to outdoor lighting To some degree the book represents the preference of the author The selection of the subjects is based on more than 50 years of experience of what is desirable to know for persons engaged in scientific research or practical application in the fields of lighting and vision The subjects deal with a number of fundamental aspects The theorists must have them at their fingertips whereas the practical engineers may assume them as known in their daily work The selection of subjects is based in part by the questions that came to the author over the years but even more by the preference of the author himself In this respect it is a personal book Thus it should be stressed that the book is not a handbook or even a textbook many subjects that commonly are treated in such books are not included here Not because they lack importance but because the author feels that they are adequately treated elsewhere Some relevant works are mentioned in the References Over the years the author has been engaged in giving courses on vision and lighting lately more in particular on Masterclasses on a post graduate or post doctorate level

**Books in Print Supplement**, 2002      The Publishers' Circular and Booksellers' Record, 1906      *The Publishers' Trade List Annual*, 1969      *Lock Gates and Other Closures in Hydraulic*

*Projects* Ryszard Daniel, Tim Paulus, 2018-11-27 *Lock Gates and Other Closures in Hydraulic Projects* shares the authors practical experience in design engineering management and other relevant aspects with regard to hydraulic gate projects. This valuable reference on the design, construction, operation and maintenance of navigation lock gates, movable closures of weirs, flood barriers and gates for harbor and shipyard docks provides systematic coverage on all structural types of hydraulic gates, the selection of gate types and their advantages and disadvantages. The discussion includes the latest views in new domains such as environmental impact of hydraulic gate projects, sustainability assessments, relation with the issues of global climate change, handling accidents and calamities and the bases of asset management. Heavily illustrated, this reference provides a generous amount of case studies based on the author's own and their colleagues' experiences from recent projects in Europe, America and other continents. Presents extensive coverage of the operational profiles of hydraulic closures including gates in navigation locks, movable closures on river weirs, closures of flood barriers, spillway closures and valves and more. Outlines the different structural types of hydraulic gates including miter gates, vertical lift gates, flap and hinged crest gates, radial gates, rolling and barge gates, sector gates and many other. Clearly outlines the selection process for gates for navigation locks, river weirs, flood barriers, hydroelectric plants, shipyard docks and other hydraulic structures. Provides comprehensive discussion of design loads and other actions to which hydraulic gates may be subjected during their service life, followed by an overview of analysis methods and tools. Addresses the newest challenges and concerns in hydraulic gate projects such as environmental impact of hydraulic gate projects, risk based design, sustainability issues, handling accidents and calamities and gate maintenance in view of asset management. Presents the experiences from many recent projects in Europe and America including the rolling gates in large European sea locks, gates in the Panama Canal, new locks, flood barriers in New Orleans and the Netherlands.
