Kirby, 2017-09-15 Excerpt from *Public Speaking and Reading A Treatise on Delivery According to the Principles of the New Elocution* The ground of this variability is the way the mind acts In reading there is little differentiation of the thoughts the emotion is unvaried It is indeed mainly the emotion connected with a kind Of chant and closely associated with the sense of rhythm In this form of expression the mind is less alert and it runs along the line of the least resistance About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Public Speaking David Zarefsky, 1999 **Rhetorical Delivery as Technological Discourse** Ben McCorkle, 2012-01-19 According to Ben McCorkle the rhetorical canon of delivery traditionally seen as the aspect of oratory pertaining to vocal tone inflection and physical gesture has undergone a period of renewal within the last few decades to include the array of typefaces color palettes graphics and other design elements used to convey a message to a chosen audience McCorkle posits that this redefinition while a noteworthy moment of modern rhetorical theory is just the latest instance in a historical pattern of interaction between rhetoric and technology In *Rhetorical Delivery as Technological Discourse A Cross Historical Study* McCorkle explores the symbiotic relationship between delivery and technologies of writing and communication Aiming to enhance historical understanding by demonstrating how changes in writing technology have altered our conception of delivery McCorkle reveals the ways in which oratory and the tools of written expression have directly affected one another throughout the ages To make his argument the author examines case studies from significant historical moments in the Western rhetorical tradition Beginning with the ancient Greeks McCorkle illustrates how the increasingly literate Greeks developed rhetorical theories intended for oratory that incorporated writerly tendencies diminishing delivery's once prime status in the process Also explored is the near eradication of rhetorical delivery in the mid fifteenth century the period of transition from late manuscript to early print culture and the implications of the burgeoning print culture during the nineteenth century McCorkle then investigates the declining interest in delivery as technology designed to replace the human voice and gesture became prominent at the beginning of the 1900s Situating scholarship on delivery within a broader postmodern structure he moves on to a discussion of the characteristics of contemporary hypertextual and digital communication and its role in reviving the canon while also anticipating the future of communication technologies the likely shifts in attitude toward delivery and the implications of both on the future of teaching rhetoric

Rhetorical Delivery as Technological Discourse traces a long view perspective of rhetorical history to present readers a productive reading of the volatile treatment of delivery alongside the parallel history of writing and communication technologies This rereading will expand knowledge of the canon by not only offering the most thorough treatment of the history of rhetorical delivery available but also inviting conversation about the reciprocal impacts of rhetorical theory and written communication on each other throughout this history

The Classical Review ,1966 The Spoken Word Adam Fox,Daniel Woolf,2002 Discusses the transition from a largely oral to a fundamentally literate society in the early modern period During this period the spoken word remained of the utmost importance but development of printing and the spread of popular literacy combined to transform the nature of communication Examines English Scottish and Welsh Oral culture to provide the first pan British study of the subject Covers several aspects of oral culture ranging from tradition to memories of the civil war to changing mechanics for the settling of debts The time span concentrates on the period 1500 1800 but includes material from outside this time frame covering a longer chronological span than most other studies to show the link between early modern and modern oral and literate cultures

Sydney University Reprints , **Public Speaking** William W. Neher,David H. Waite,Nicholas M. Cripe,Royce E. Flood,1994 Dramatizing Writing Virginia Skinner-Linnenberg,2020-07-24 Although speech departments have owned delivery for the last 100 years those who teach writing especially English departments can gain a great deal by reinstating delivery into their conceptions of and theories about writing Thus in the author s vision of dramatizing writing in the composition classroom delivery can have an impact on all the composing steps from invention to final draft The goals of this text are to redefine delivery for writing to reunite it with other parts of the classical rhetorical canon and to practically apply it in contemporary writing instruction This text is divided into three main sections The first provides a survey of the history of delivery in rhetorical theory A continuum is set up from a totally physical conception of delivery to a noetic one which incorporates more intellectual processes The argument is that the tension heightened by discord over its definition eventually led to the splitting of delivery from the rhetorical canon A separate discussion of the women s challenge to delivery is also included The next section contains a survey of facets of delivery that exist in current theory combined with the author s own theory of delivery It provides insight into the state of delivery in contemporary writing instruction The author argues that since the split of delivery from the rhetorical canon has caused a modern bias

against delivery in writing theory many strategies that could aid in the teaching of writing have either been overlooked or undertheorized Therefore she borrows from current theoretical areas within and outside of writing in order to construct her own theory of delivery The last section provides practical applications of delivery in writing instruction Again borrowing from many sources inside and outside of composition she describes the techniques teachers may use to incorporate delivery in a writing classroom Through the use of delivery more strategies may be developed to aid in the teaching of writing Special features include the incorporation of some practices that had been in use in the composition classroom for many years but did not have any consciously theoretical grounding the discussion of women rhetoricians theories on delivery the combination of many contemporary theoretical areas including theatrical feminist rhetorical and pedagogical to form the author's redefined theory of delivery and the presentation of practical applications of this new theory of delivery for teachers to utilize in their own classrooms

The ^AOxford Handbook of Rhetorical Studies Michael J. MacDonald, 2017-09-20
Featuring roughly sixty specially commissioned essays by an international cast of leading rhetoric experts from North America Europe and Great Britain the Handbook will offer readers a comprehensive topical and historical survey of the theory and practice of rhetoric from ancient Greece and Rome through the Middle Ages and Enlightenment up to the present day

Annual Catalogue Chicago Theological Seminary, 1926 *Print, Manuscript & Performance* Arthur F. Marotti, Michael D. Bristol, 2000 The eleven essays in this volume explore the complex interactions in early modern England between a technologically advanced culture of the printed book and a still powerful traditional culture of the spoken word spectacle and manuscript Scholars who work on manuscript culture the history of printing cultural history historical bibliography and the institutions of early modern drama and theater have been brought together to address such topics as the social character of texts historical changes in notions of literary authority and intellectual property the mutual influence and tensions between the different forms of publication and the epistemological and social implications of various communications technologies Although canonical literary writers such as Shakespeare Jonson and Rochester are discussed the field of writing examined is a broad one embracing political speeches coterie manuscript poetry popular pamphlets parochially targeted martyrdom accounts and news reports Setting writers audiences and texts in their specific historical context the contributors focus on a period in early modern England from the late sixteenth through the late seventeenth century when the shift from orality and manuscript communication to print was part of large scale cultural change Arthur F. Marotti's and Michael D. Bristol's introduction analyzes some of the sociocultural issues implicit in the collection and relates the essays to contemporary work in textual studies bibliography and publication history
