You'll make yourself popular with your colleagues and keep your customers and users happy and productive. What You'll Learn: Manage reporting and keep a record of issues that occur. Provide effective remote support for users away from home or working in another office. Use error and system reporting in Windows to obtain high quality, relevant information. Spot patterns in user behavior that may be causing difficult to diagnose problems. Be familiar with best practices to make you a better support professional. Who This Book Is For: IT professionals, IT support on site and remote, and system administrators who manage support teams. No prior knowledge is required.
