*McGraw-Hill's National Electrical Code (NEC) 2017 Handbook, 29th Edition* Frederic P. Hartwell, Joseph F. McPartland, 2017-04-17 The Definitive Guide to the 2017 National Electrical Code Completely revised to fully align with the 2017 NEC McGraw Hill's National Electrical Code NEC 2017 Handbook 29th Edition presents the trusted advice and analysis you need to accurately interpret the latest set of rules. In-depth coverage of the background and rationale for specific rules enhances understanding of the meaning and application of those rules. This practical resource also illustrates key points through discussions with owners and inspectors. Designed to be used as a companion guide to the 2017 NEC itself, this on-the-job reference is arranged in code order so the explanation for any topic lines up exactly with the applicable section in the code. You will gain access to straightforward ready-to-apply code clarification enabling you to work efficiently and safely and achieve full compliance. Completely updated to cover all changes in the 2017 NEC. Provides concise explanations of controversial rules. Written by a senior member of the NEC steering committee

### **The Blended Course Design**

**Workbook** Kathryn E. Linder, 2023-07-03 Blended, also called hybrid classrooms in which face to face interaction is intentionally combined with online activities to aid student learning, are becoming more and more common. Most recently, flipped classrooms have become a popular method for teaching because more time for active learning in class can be gained by moving content delivery such as lecture to outside of class homework using technology tools such as video or lecture capture. The blended model is proving to be an environment that provides more self-directed technology-mediated learning experiences for students who will be incorporating technology more and more into their professional lives post-college. The Blended Course Design Workbook meets the need for a user-friendly resource that provides faculty members and administrators with instructions, activities, tools, templates, and deadlines to guide them through the process of revising their traditional face-to-face course into a blended format. Providing a step-by-step course design process that emphasizes active learning and student engagement, this book will help instructors adapt traditional face-to-face courses to a blended environment by guiding them through the development of course goals and learning objectives, assignments, assessments, and student support mechanisms with technology integration in mind. It will also help instructors choose the right technologies based on an instructor's comfort level with technology and their specific pedagogical needs. The book will help each instructor who uses the text to develop a unique course by making choices about their course design based on student learning needs for their chosen topic and discipline. Every component of the workbook has been piloted with faculty designing and implementing blended courses and then revised to better meet the needs of faculty across a range of comfort levels with technology use. The Blended Course Design Workbook includes detailed instructions for each stage of course design alongside specific activities that the reader can complete. The book is unique because it facilitates a step-by-step process for blended course design with specific templates and tools that can be used across disciplines
