## **Construction Of Fills:**

**Construction of Fills** Edward J. Monahan, 1994-01-14 The compaction guide to greater profits less hassle Boost your bottom line with the expert efficient soil compaction techniques and technological solutions in this fully updated Second Edition. This revision will provide the contractor fill inspector and geotechnical engineer with greater coverage of environmental topics including Septic system site investigation evaluation design and construction plus existing system renovation repair maintenance and management. The latest uses of artificial fills from around the world foam plastics Elastizell Geocell Solite and waste materials like shredded tires and wood chips. New material and helpful case studies on the correlation of Standard and Modified Proctor densities and a method for determining numerical values of bearing capacities for Proctor densities. In addition to the current state of the art of fill technology basic insights into soil behavior are provided. Innovative and patented methods of design are presented especially valuable for young practitioners and those responsible for their supervision and continuing education. Reviewed as conversational humorous full of wisdom and practical this unusually readable resource is a profit maker no construction professional can afford to do without.

## **Construction Of and On Compacted Fills**

**Compacted Fills** Edward J. Monahan, 1986-05-06 Offers practical and useful information for all those involved in the planning specifications and execution of earthwork construction. Aimed at showing practitioners in this field from the architect to the fill inspector how to avoid the costly and potentially dangerous losses due to defective earth structures or fills. Aimed specifically at the nonspecialists who are routinely involved but do not consult with geotechnical specialists.
